Recycled Water Supply Update

Board of Public Utilities Meeting
Andrew Romero,
Reclamation Superintendent
June 20, 2019

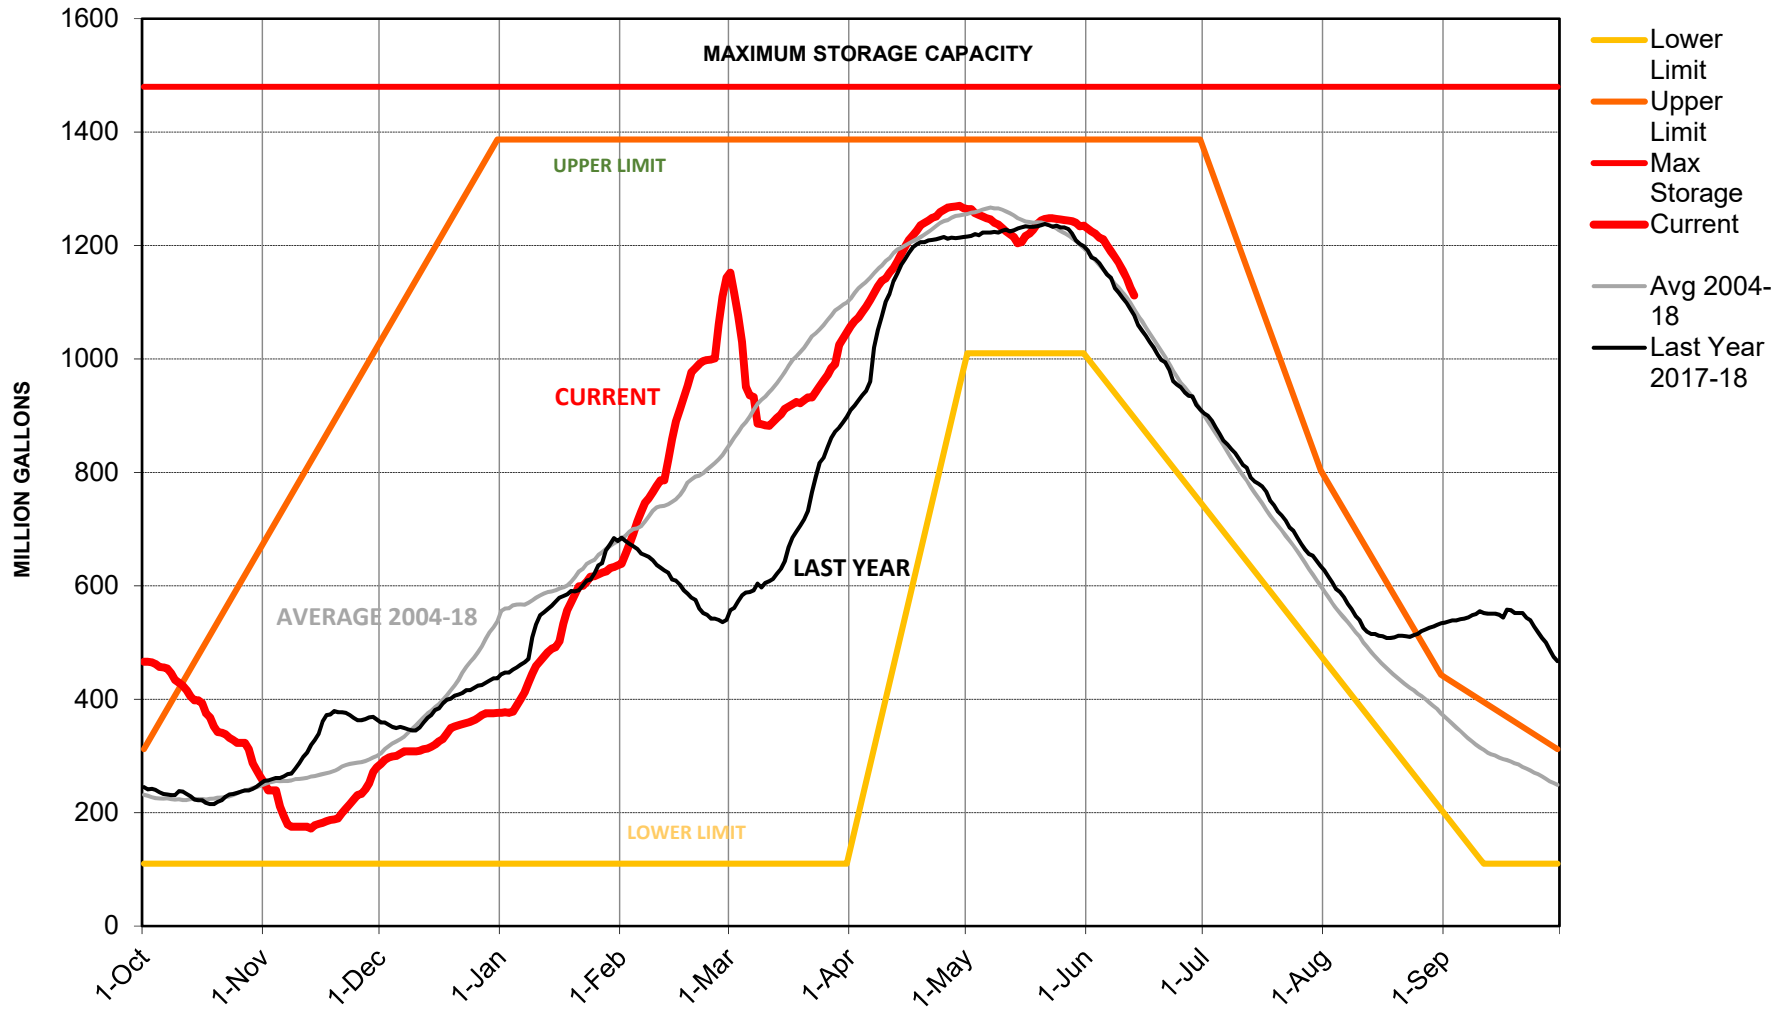

OUR FUTURE IN EVERY DRÖP

Current conditions

- Current storage volume: 1,100 MG
 - ~170 MG decrease since May 1st
- First hay cuttings have been completed
- Agricultural irrigation is in full operation

Recycled Water Storage June 14, 2019 1100 MG

Look Ahead

- Ponds C&D being drained for repair work this summer
 - Spring rains may delay pond availability by two weeks
- Geysers pipeline maintenance in August
