Hi there,

I am writing to ask for parking protected bike lanes on Mendocino!

Protected bike lanes and existing (and future) restaurant parklets are not mutually exclusive. [Here is a link to an example of a parking protected bike lane that accommodates a curbside cafe parklet.](#)

A protected bike lane on Mendocino would really improve the experience of biking and walking on this street--and it would make the businesses easier to see from a car's perspective too!

Please take this opportunity to make this stretch of Mendocino more friendly to pedestrians and cyclists. It's good for people, [and it's good for businesses \(Forbes 2018\)!](#)

Thank you for your consideration,
Alexandria
