Scope of Services/Compensation Schedule

REDWOOD LANDFILL INC. shall provide the necessary site(s) and handling services for disposal of biosolids generated at the City Laguna Wastewater Treatment Plant. The biosolids shall be transported to Redwood Landfill Inc. by the City's current biosolids hauling contractor, or City Staff by City vehicle. The amount of biosolids to be transported to Redwood Landfill Inc. through October 31, 2023 is estimated at 3,500 wet ton and will be approximately 15 - 20% solids by weight with no reuse requirements. Acceptable limits of Primary Sludge at 20%, Secondary or mixture of Primary and Secondary Sludge 15% or higher. Redwood Landfill Inc. will be an alternate site to receive biosolids if the City cannot haul biosolids to our primary land application and biosolids processing locations.

Biosolids must meet waste acceptance criteria as specified by Redwood Landfill, Inc. The City will submit a biosolids quality analysis report on a schedule prescribed by Redwood Landfill Inc. A current biosolids quality analysis report is on file with Redwood Landfill Inc.

The City will notify Redwood Landfill Inc. of plans to deliver more than 23 tons per day to ensure adequate daily capacity is available. Redwood Landfill Inc. will be available to receive delivery of biosolids from the City a minimum of 8 hrs per day, 6 days a week. At the time of this contract, Redwood Landfill Inc. may receive delivery of biosolids from the City during normal operating hours, Monday through Friday from 12:00 a.m. to 3:00 p.m. and Saturdays from 12:00 a.m. to 3:30 p.m., if needed. Redwood Landfill Inc. will notify the City of any change in hours for receipt of biosolids a minimum of 30 days in advance.

Redwood Landfill Inc. has the right to reject wastes that do not conform to the specifications set forth in this section or in the biosolids quality analysis report or which Redwood Landfill Inc. believes to be hazardous wastes as defined by State of California Administrative Code Title 22 and/or Redwood Landfill's Schedule #1 Profile Form.

The disposal cost (tipping fee) for biosolids material during the term will be at a fixed rate of \$51.70/per wet ton.
