- PLEASE DO NOT REPLY TO ALL -

Chair Weeks and members of the Planning Commission,

The reason for this email is to provide you with late correspondence for item 8.2, Public Hearing – Zoning Code Text Amendments To Prohibit New Gas Stations and Prohibit Expansion of Fossil Fuel Infrastructure for Existing Stations, scheduled for Thursday’s meeting. These will also be added to the agenda as an attachments.

Thank you,

Michelle Montoya | PACE | Administrative Secretary

Planning & Economic Development | 100 Santa Rosa Avenue, Room 3 | Santa Rosa, CA 95404

To the esteemed members of the Santa Rosa Planning Commission:

I do not live in Santa Rosa, but as a nearby neighbor, I am affected by the actions your take.

As the effects of climate change continue to worsen, we must take care not to exacerbate it by increasing the fossil fuel infrastructure. We have plenty of gas stations to see us through the change to more sustainable energy sources for transportation.

Please oppose building any new gas stations in Santa Rosa.

Thank you for considering my opinion on this matter.

You are considering the prohibition of all new gas stations. I strongly urge you to adopt this ban because we are in a climate crisis caused by burning fossil fuels. These gas stations will quickly become obsolete as we address the climate crisis. We should consider building SAFE bike lanes in our city instead.

Thank you,
Lynn Wheeler

Subject: [EXTERNAL] Support for the prohibition on new gas stations.
Date: Tuesday, July 12, 2022 10:12:22 AM

To the Santa Rosa Planning Commission,

This week you are considering the prohibition of all new gas stations. I support this action, and I urge you to adopt this ban now. We need to move toward a new model of energy and transportation. Electric vehicles, bicycling, walking, and public transportation are the infrastructure of a climate protection model and we need to support these. Gas stations will become relics of pollution and waste. We have enough to get through the transition, we don't need more. Please use your imagination to envision a new future beyond gas powered cars, and ban new gas station.
