## APPENDIX E: CAP NEW DEVELOPMENT CHECKLIST

To ensure new development projects are compliant with the City's Climate Action Plan, the following checklist has been developed. ### DISCUSSION (PLEASE LIST POLICY #)

CAP Goal 1 – 1.1.3 was adopted to coincide with CA Energy Codes. Since the CAP adoption, the CEC has determined that it is not possible to achieve net zero on a wholesale basis and “net zero” has been removed from the CA Energy Codes. Appendix E of the Climate Action Plan states that, “To be in compliance with the CAP, all measures denoted with an asterisk are required in all new development projects unless otherwise specified. If a project cannot meet one or more of the mandatory requirements, substitutions may be made from other measures listed at the discretion of the Community Development Director.” CAP Goal 1.1 requires projects to comply with Tier 1 CALGreen requirements, as amended, for new non-residential and residential development. Tier 1 CALGreen does not include “net zero” GHG assumptions for development. In addition, current CA Green Building Code Standards apply to all projects and has been determined by the Director to be an acceptable substitution for CAP Goal 1 – 1.1.3. Therefore, strict compliance with CAP Goal 1 – 1.1.3 is not achievable and not required.

CAP Goal 3.2.2: A bicycle lane currently exists along the west side of Santa Rosa Avenue.

CAP Goal 3.3.1: A bus stop is proposed at the northeast corner of the site.

CAP Goal 3.5.1: The project developers are considering "unbundling" of parking as a tenant rent option.

CAP Goal 4.1.3: The project developers are considering bicycle safety training as a management program for new tenants.

CAP Goal 4.2.2: A new bus stop serving project tenants and the surrounding area is being constructed at the northeast corner of the site allowing tenants safe access to public transportation without having to cross Santa Rosa Avenue.

CAP Goal 5.1.2: Conduit and pre-wiring for EV charging stations will be provided.

CAP Goal 9.2.3: Developers will work with builders to ensure compliance to greatest extent possible.
