Date: Saturday, November 27, 2021 2:42:28 PM

Project Planner,

We live at [REDACTED], not far from the proposed dispensary. This location is very close to Proctor Terrace School.

A dispensary attracts people who regularly use drugs and marijuana is a drug. As a retired school high school administrator,

I can tell you that most of the underage students who were regular users of this drug obtained them through friends or relatives

who were dispensary customers. I can also tell you that young people who use this drug regularly are usually terrible students

and more often involved in crime.

The argument that it is for adults for medical use is complete nonsense.

There is no benefit for marijuana use. It doesn't make anyone a better person.

The idea of letting this happen in a family neighborhood is reprehensible.

I wish Sant aRosa would ban every dispensary but since they have not done this, then locate them far away from family neighborhoods.

Place them in Santa Rosa Avenue area where you can see homeless, prostitutes and drug users join a regular basis ruining our community.

Chris and John Vetrano

Subject: [EXTERNAL] Feedback on Flora Terra Dispensary
Date: Sunday, August 22, 2021 7:57:49 PM

Dear Susie,

We are writing to register our disapproval of the project: Flora Terra Dispensary 1226 4th Street, Santa Rosa Avenue.

We appreciate the Neighborhood Meeting last week, and the ability to get our questions answered.

As stated by owner Alicia Wingard at the meeting, her goal is to increase use of marijuana products primarily among “soccer moms”.

Our main concern is that a Marijuana Dispensary in our neighborhood will do just that.

We expect that it would indeed increase the use of marijuana products in the neighborhood, leading to more impaired parents and drivers. In addition, we would expect more use among younger adults and juveniles as a consequence.

As Peter pointed out at the meeting, this is a walkable neighborhood of individuals and families, and is best served by family-friendly shops, services, and restaurants.

A shop that increases impairment in the neighborhood would not be family-friendly.

Also as stated by Flora Terra employee Megan, these products can sometimes dramatically help pain in a much better way than narcotics.

In that regard, a dispensary could potentially provide a valuable product to people with chronic intractable pain, who have no other healing treatment available, or for whom healing is a long process.

The Terra Flora Dispensary already existing on Empire Industrial Court is well-situated for that in a business area.

It is not in situated in a neighborhood.

From its windows, neighborhoods can be seen across the railroad tracks and behind the parking lot, but that is not the same as being in an walkable neighborhood.

For these reasons, we think that the expansion of the Terra Flora Dispensary should be done in another industrial area, and not in a walkable Santa Rosa neighborhood.

Thank you for listening and responding to our concerns.

Sincerely,
Peter and Constance Sultana

Subject: [EXTERNAL] Flora Terra Dispansary
Date: Monday, August 16, 2021 12:37:02 PM

Hello, Ms. Murray:

We are writing to voice our support for Alicia Wingard's application to operate a cannabis dispensary at 1226 4th Street, not far from where we have lived on 14th Street for over 40 years.

Considering the variety of businesses that have operated in this location over the years, its commercial environment and, as far as we know, the trouble-free operation of dispensaries in general, we feel fear on the part of some McDonald Historic District residents of property value impacts is a relic of historic demonization.

As to traffic concerns, we doubt there would be much difference between the past experience with Café de Croissants (day) and Bruno's (evening) and Flora Terra.

We hope a vocal minority will not overrule a dispassionate analysis on the application's merits.

Thanks for your attention.

Cordially,
-Peeter and Joan Vilms

Dear Ms. Murray,
I live on Spring Street, and I have no problem with the proposed dispensary.
I have been in Flora Terra stores in San Francisco and here in Santa Rosa.
They are very upscale and look a lot like an Apple store or Williams Sonoma.
High prices will determine the clientele.
Sincerely,
Rochelle Nyquist

Subject: [EXTERNAL] notice of application

Good morning Susie Murray,

I strongly oppose a cannabis club directly across the street from our Goodwill store. We are a non-profit family friendly organization and we already have a very difficult time with individuals coming into our store smelling strongly of cannabis; we have had to ask them to leave on more than one occasion. Our customers already complain about those individuals, I cannot imagine the chaos a dispensary will bring to this neighborhood; loss of business and repeat customers, and overall upset in the neighborhood. Our target market and customer base is a complete contrast to that of a cannabis dispensary.

Please consider this, I don't know if it makes any difference but we are worried about the impact it will have on our business.

Thank you,

Melissa Anderson

Subject: [EXTERNAL] 12216 4th St - OPPOSITION to Flora Terra Dispensary

Hello,

I live at 913 Spring Street, 2 blocks down the street from the proposed Cannabis Retail facility at 1226 4th Street. I am writing to express my **strong opposition** to allowing a dispensary to operate in this location for the following reasons:

- This is one of the highest end, historic neighborhoods in Santa Rosa. This is a family-friendly neighborhood where kids are safe riding bikes and walking dogs. Allowing the dispensary to occupy this space will increase traffic on our neighborhood streets.....traffic by individuals who don't live here and therefore don't drive like *their* kids are playing on the streets. They speed with no regard for the residents.
- A dispensary belongs in a commercial district, not in a neighborhood. This location is better suited to a family-friendly business such as a restaurant.
- Dispensary operating hours aren't commensurate to neighborhoods with young families that wind down early and are quiet, safe places.
- Dispensaries attract individuals who would normally not be in the Historic McDonald district and aren't welcome due to their drug habits. Why would we want to subject our kids to this population?
- If the dispensary intends to offer delivery, this brings up another security/safety concern. Having vehicles drive through our neighborhood that have hundreds of dollars' worth of merchandise on board are targets for crime in a neighborhood where crime is low.
- Parking is also of concern, since the lot behind 1226 4th St only accommodates 5-6 cars. Dispensary customers will be parking on neighborhood streets and will likely loiter, leave drug paraphernalia, and bring a population into the neighborhood that has no other reason to be there. Keep these people in the downtown SR core and out of a high end neighborhood.

All of these reasons outlined above are precisely why our entire neighborhood opposed the dispensary which was slated to go in where Urban Garden is moving next to Foster's Freeze a few years back.

Due to COVID, there are lots of available store fronts and business retail locations in our city, so please locate this dispensary elsewhere.

Subject: Feedback on Flora Terra Dispensary

Dear Susie,
We are writing to register our disapproval of the project: Flora Terra Dispensary 1226 4th Street,

Santa Rosa Avenue.

We appreciate the Neighborhood Meeting last week, and the ability to get our questions answered.

As stated by owner Alicia Wingard at the meeting, her goal is to increase use of marijuana products primarily among “soccer moms”.

Our main concern is that a Marijuana Dispensary in our neighborhood will do just that.

We expect that it would indeed increase the use of marijuana products in the neighborhood, leading to more impaired parents and drivers. In addition, we would expect more use among younger adults and juveniles as a consequence.

As Peter pointed out at the meeting, this is a walkable neighborhood of individuals and families, and is best served by family-friendly shops, services, and restaurants.

A shop that increases impairment in the neighborhood would not be family-friendly.

Also as stated by Flora Terra employee Megan, these products can sometimes dramatically help pain in a much better way than narcotics.

In that regard, a dispensary could potentially provide a valuable product to people with chronic intractable pain, who have no other healing treatment available, or for whom healing is a long process.

The Terra Flora Dispensary already existing on Empire Industrial Court is well-situated for that in a business area.

It is not in situated in a neighborhood.

From its windows, neighborhoods can be seen across the railroad tracks and behind the parking lot, but that is not the same as being in an walkable neighborhood.

For these reasons, we think that the expansion of the Terra Flora Dispensary should be done in another industrial area, and not in a walkable Santa Rosa neighborhood.

Thank you for listening and responding to our concerns.

Sincerely,

Peter and Constance Sultana

Ms. Wood,

Thank you for you comment. I'll be sure to pass it along to the Planning Commission before any action is taken.

Susie

Subject: [EXTERNAL] We are against Flora Terra Dispensary

Susie Murray, Project Planner; I am against this project because It will be a bad influence on the children in this neighborhood. We think this Cannabis Retail facility belongs in a commercial area away from neighborhoods with children. We live 2 blocks from this project.

Subject: [EXTERNAL] ZOOM meeting flyers

Very informative ZOOM presentation tonight re: cannabis dispensary. Thank you. Do you have any idea how many actually watched? **I think there were 30-35 people in attendance.**

Do you know who was responsible for strewing hundreds of flyers about the meeting throughout the neighborhood? They were apparently just left on lawns and porches, but ended up flying around in the streets, the gutters, etc. Very messy. **I have not idea and was very disappointed to hear this.**

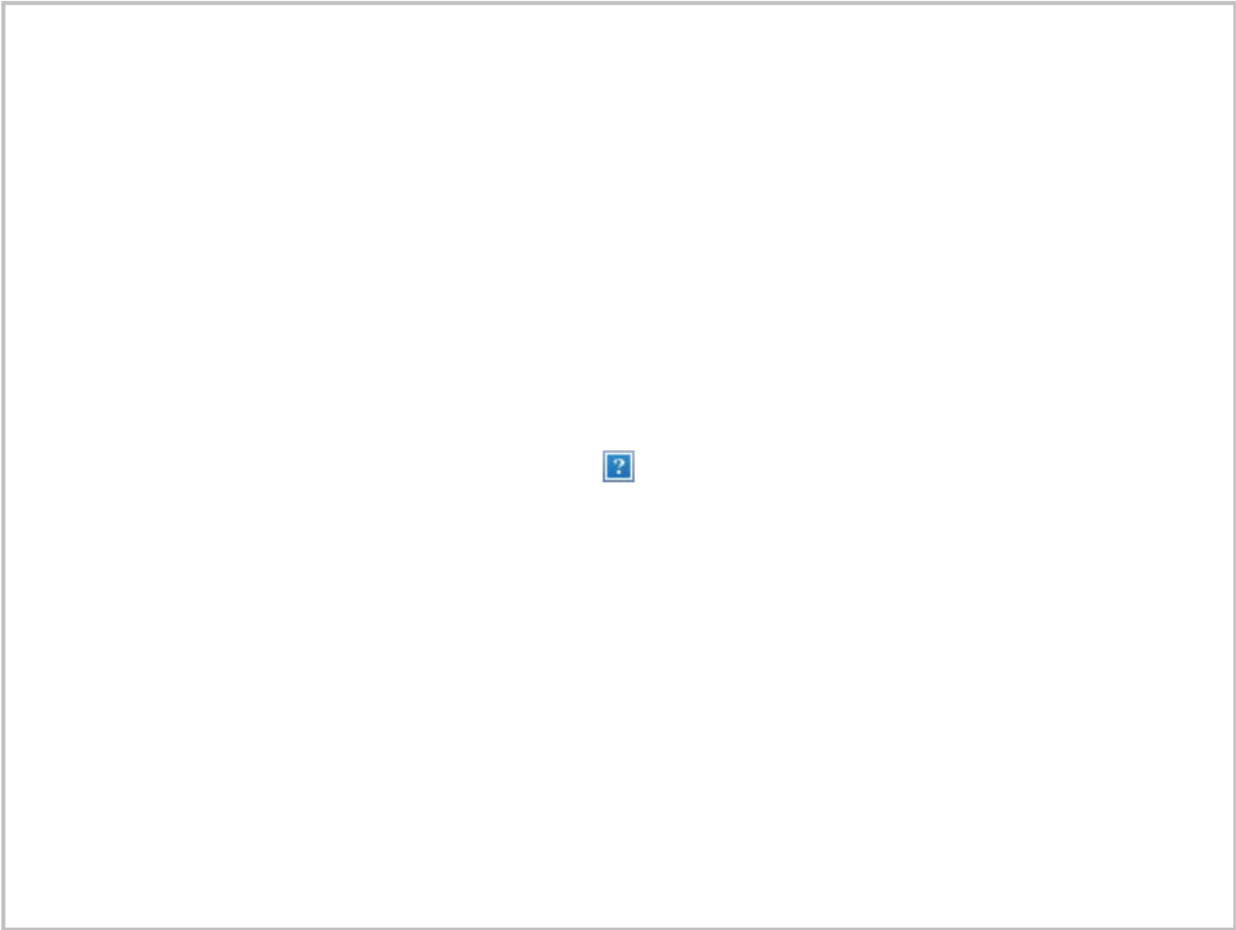

I've attached a photo of the flyer, which looks like it was printed off the City website.

I hope the City didn't go that. Was it the Wingards? Or a disgruntled neighborhood resident? **Again, I have not idea, although I think it very unlikely that it was the applicant or a City staff member.**

I'd like to know.

By the way, I have zero objections to the dispensary. Very impressed by the applicants. **Noted.**

Subject: [EXTERNAL] 1226 4th street Proposal

Project Planner,

We live at 1679 Norte Way, not far from the proposed dispensary. This location is very close to Proctor Terrace School.

A dispensary attracts people who regularly use drugs and marijuana is a drug. As a retired school high school administrator, I can tell you that most of the underage students who were regular users of this drug obtained them through friends or relatives who were dispensary customers. I can also tell you that young people who use this drug regularly are usually terrible students and more often involved in crime.

The argument that it is for adults for medical use is complete nonsense.

There is no benefit for marijuana use. It doesn't make anyone a better person.

The idea of letting this happen in a family neighborhood is reprehensible.

I wish Santa Rosa would ban every dispensary but since they have not done this, then locate them far away from family neighborhoods.

Place them in Santa Rosa Avenue area where you can see homeless, prostitutes and drug users join a regular basis ruining our community.
