Dear Concilmembers,

I am a Jewish resident of Santa Rosa. I urge you to put forth a ceasefire resolution on the City Council agenda.

I mourn for both Israeli lives lost on October 7th and now, at least, 27,000 palestinian lives lost in Israel's retaliation. More than 11,000 children Palestinian have died. Collective punishment and genocide is not making anyone safer.

Thank you

To whom it may concern:

My name is Gillian Stewart, and I am a Santa Rosa resident and have lived in Sonoma County my whole life.

I am writing to urge the city council to put a Ceasefire Resolution on the agenda as soon as possible for the safety of the people living in occupied Palestine who, since the beginning of October, have faced ruthless violence and collective punishment at the hands of the Israeli government. The citizens of Gaza live under constant threat of restricted access to water, food, and electricity; they are having to undergo surgery without access to anesthesia, and are at increased risk of dying of starvation. They are having to dig their own family members and neighbors out of the rubble where their homes used to be. To be clear, this is a humanitarian crisis, and I do not want my tax dollars to continue to fund the collective punishment of the Palestinian people, which makes no one safer.

This is a personal and a local issue. Palestinians living in Sonoma County, and those in solidarity with them, are waiting for local governments to make the right call and demand an immediate ceasefire in Palestine.

Thank you.

Dear Santa Rosa City Council,

I hope my email finds you well. My name is Cassidy Leeds, and I am a 22 year old college student in my senior year at Sonoma State University. I am writing today to urge you, as city council members, to put a Ceasefire Resolution on the agenda and to support a permanent and immediate ceasefire in Gaza and Israel.

I believe that both innocent Palestinian and Israeli civilians deserve to live their lives in peace and safety, and that a permanent ceasefire is the only way to create this reality. Peace cannot be achieved by the continuous bombing, massacring, and brutalization of innocent Palestinians in Gaza. We have witnessed these terrors being broadcasted live on our phone screens for more than 125 heartbreaking days. Around 30,000 people in Gaza have been horrifically killed, and those who are still alive are facing illness, starvation, and displacement without adequate access to aid.

From here in Santa Rosa and Sonoma County, my loved ones and I are beyond horrified that our tax dollars are going towards funding the weapons that are responsible for committing these atrocities. It is absolutely unacceptable and unconscionable.

Our leaders, both locally and nationally, must take immediate action to help put an end to the genocide that is being committed as I write this message. A ceasefire resolution would powerfully show that the city of Santa Rosa stands against genocide, and instead, stands for the protection of the innocent lives of both human beings and animals.

Thank you very much for your time and attention to this urgent matter. I hope that you will use your power to create a positive change and to uphold human rights, by supporting a permanent and immediate ceasefire now.

Sincerely,
Cassidy Leeds

Dear esteemed colleagues,

The time is now, to call for a cease-fire resolution. The horrors of the war campaign by Israel's military on the civilian population of Gaza are beyond the pale.

Empathetic and educated cities around the country are calling for an immediate cease-fire resolution to be signed by every city council.

We cannot remain silent in a genocide. We cannot allow our tax dollars to be used to commit these atrocities.

As an artist, a teacher, and a business owner in Santa Rosa, I urge you to pass this resolution immediately.

Dear City Council Members,

I am a resident of Santa Rosa for 23 yrs and of Sonoma County for 45 yrs.. I am grateful for the opportunity to speak here.

I have close family who fled the progroms in Eastern Europe and I have devoted much time studying the Holocaust often in tears for what was done.

I have been an activist for Social Justice since I was in high school back in NYC. I have worked in refugee camps, most recently in Matamoros, Mexico during Family Separation policy providing services to families who were trapped at our southern border running for their lives and facing further terror of cartel kidnappings and sex trafficking in the camps every day..

In the refugee situation I have been in since 1982, the most common response from those trapped there is "We thought no one knew what was happening to us. We have felt alone and abandoned." They have wept in my arms as i told them, "I care....my people care,my friends and family and neighbors care. They have given me money to help you." They sob and sob to know they are not forgotten. The supplies and services I helped create and fund matter enormously but the hopelessness of feeling abandoned in the terror and helplessness they experience was soul crushing. It is that abandonment I hear from the Palestinians in video after video.

My impetus in all the refugee and other Social Justice work I have done is bearing witness to the suffering and imagining myself in their places... digging my beloved grandchildren from under the rubble with my bare hands or being torn from my arms by border patrol or chased by cartel and unable in any of these situations to control the outcomes for my those I love. I chose to move from overwhelm. I am compelled to speak the truth and take action. That has been particularly hard right now where is it impossible to take the kinds of action I am familiar with. It is this that compels me to speak up for a Ceasefire resolution here. It is something we can do to call attention to the genocidal actions and say "We see you. You Matter".

The impact of a Ceasefire Resolution even in our small part of the world has the power to support a people who are being systematically destroyed and do not understand why our government does not care. It is speaking the truth and speaking for the disempowered and in this case speaking against the complicity of our tax dollars funding the brutality and mass destruction.

Thank you for your commitment to human rights and freedoms for all people.

May all people be at peace, may all be free.

Thank you for reading my email. My name is Danielle Delario, many in the community know me as Daniela. I am a mom, a teacher, and a community member and have been living in Cotati since 2009 and in Sonoma county for decades. Like the majority of Americans I am outraged by the slaughter of Palestinian men, women, and children in the name of Israeli self-defense. Israel has bombed hospitals, places of worship, schools, and the homes of everyday citizens. There is nowhere safe in Gaza and now Israel is bombing Rafah, where over a million Palestians are camping in the streets having been driven from their homes in the north. Israel has admitted again and again that their objective is to rid Gaza of Palestinians and that they will take the land for themselves. This is ethnic cleansing, is illegal under international law and the United States government, rather than speak out against it, is funding this genocide against Palestinians.

I ask that you put a Ceasefire resolution on the agenda. Hundreds of cities across the US, including my own, have passed Ceasefire resolutions to send a message to our government that we do not under any circumstances, whether in the Middle East, Europe, or elsewhere, support the targeting and killing of innocent civilians.

Six year old Hind Rajab spoke on the phone with an aid worker after her five family members she was attempting to flee with were murdered by the IDF. She cried on the phone with the aid worker, saying to come quick because she was afraid of the dark. The red crescent gained permission to send an ambulance to rescue her, yet rather than let the aid workers through, the IDF attacked the ambulance, killing the workers as well as murdering the young and defenseless Hind. This is just one of the many examples of Israeli war crimes. This and other horrific stories like this do not make the world safer for anyone. These crimes against humanity have to stop and the Israeli government needs to be held accountable. And our tax dollars need to stop funding these atrocities. The best time for a ceasefire to be called was over a hundred days ago, the second best time is now.

Thank you.

Council Members,

I am writing to ask that a ceasefire resolution be added to the agenda for the February 13, 2024 Santa Rosa city council meeting.

I am calling on my local leaders to adopt an immediate and permanent ceasefire in Israel and Palestine. I ask that this resolution include the following deliverables listed in the Oakland, California resolution:

- A permanent and immediate ceasefire
- The release of all hostages
- The unrestricted entry of humanitarian assistance into Gaza
- The restoration of food, water, electricity and medical supplies to Gaza
- The respect for international law and protection and the security of all innocent civilians

I mourn the innocent people killed on October 7th as well as the over 35,000 Palestinians that have been killed by the Israeli military the beginning of this genocide. The amount of suffering that we are witnessing at the hands of the Israeli government is unbearable.

Knowing that my country supports this brutality and that my tax dollars are funding ethnic cleansing is disturbing. Instead of funding a genocide these dollars could be used to fund resources in our community such as housing, education and healthcare.

I condemn the anti-Palestinian, anti-Arab and anti-Jewish attacks that are on the rise in our local community. I believe that passing a ceasefire resolution would go a long way in showing our community that our leaders care about justice, embrace diversity and will stand up against genocide worldwide.

Please do the right thing and adopt a ceasefire resolution.

Dear SR CC,

My name is Maria Barakat, MPP. I am a resident who is passionate about the wellbeing of our town and county. As a Racial Equity Policy Expert, Sociologist of Race and Law, I spend my life seeing and naming systems of violence and racism *and how these systems came to be, function, and retain power*. I received education from Santa Rosa Junior College, UC Davis and UC Berkeley.

I am also an Arab American with family from Beirut and the southern border of Lebanon experiencing nonstop bombardment since Oct. 8th, and family who were Palestinian refugees.

I am fundamentally opposed to "othering", exclusion, hate, oppression, discrimination, and domination and I believe all humans deserve safety and dignity and self-determination. These values run through my whole life to today, and remain intact *even in the face of vast suffering and confusion like what we are all witnessing in the occupied territories of Palestine*.

I've paid close attention to Santa Rosa Council's meetings and listened to public comment across the county who support and oppose a resolution. Unfortunately, the vast majority of the opposition we have heard to date is rooted in misinformation, outright false statements by both the US State Dept. and Israeli officials, and finally, a racial bias against Arabs and Muslims.

I acknowledge the tension between our understanding of the conflict in our daily lives, the disconnect that is so easy to experience and self-doubt that can be hard to part with that can allow us to take robust positions on what we are told are "foreign policies". The truth is, we have long past the point of confusion. The time has come to act. I reject the idea that we don't know enough here in Santa Rosa. I say that we know plenty. Any small glimpse at non-US news provides the gore and horror of a full scale military assault on a hurried, isolated, trapped population of human beings who have nothing to do with the attack on October 7th.

Our Santa Rosa City Council has the chance today to stand on the side of human rights of our global brothers and sisters. Not doing so *is also a clear stand*. No one asked for this responsibility or the strife of managing difficult realities. But this is the time we are in. I ask the council to be brave and name the injustice occurring with our tax dollars and our implicit *consent*. Say no to the Israeli-US genocide of an occupied, displaced, imprisoned people.

This horrific assault on a population that is 50% under the age of 18 after decades of colonialism is a travesty against human rights. We have a responsibility to stand against colonialism and genocide at every level and the Santa Rosa City Council passing a resolution 4 months into this devastation is the minimum we need to do as a community. Dear Mayor Rogers and members of the Santa Rosa City Council,

I understand that the City Council is again being pressured to adopt a resolution calling for a ceasefire in Gaza. I thank you for resisting the pressure to do this and urge you to continue to do so.

While they may believe they are acting in the best interests of the Palestinians, a ceasefire without guaranteeing the release of the hostages and a dismantling of the Hamas leadership condemns the Palestinians to more years of abuse by Hamas and the Israelis to continuing threats from an organization that calls for its destruction and murders its civilians.

Please continue to reject any resolution calling for a ceasefire.

Billions of US tax dollars are funding this genocide, funds which would be better used addressing the many issues we face locally such as homelessness, income inequality and education.

This is also a moral issue. When humans anywhere are subject to genocidal killing it is our responsibility as humans to stand up and demand that it end.

Locally attempts to falsely conflate antisemitism with legitimate opposition to actions by the State of Israel are used to censor free speech and demonize Muslim, Arab and anti-Israel Jews. Many are afraid to speak out due to fears of violence, job loss and doxing.

Please pass a ceasefire resolution now.

Date: Monday, February 12, 2024 11:01:55 AM

I would like to ask our City Council to adopt the International Holocaust Remembrance Alliance (IHRA) working definition of antisemitism.

The recent surge in antisemitic attacks, reflecting a 24% increase in California, is deeply troubling. Jewish organizations across the state, as well as the California Attorney General's Office, have expressed serious concerns about the rising incidents. Here in Santa Rosa a Holocaust memorial fountain was vandalized twice in the past - our oldest daughter built a website for Sonoma County Community Holocaust memorial.

Santa Rosa has the opportunity to stand alongside city of Los Angeles (please, see the text of their resolution here (http://clkrep.lacity.org/onlinedocs/2022/22-1241_reso_10-19-22.pdf) , thousands of global cities and localities and 35 US states that have already adopted the IHRA definition, taking a decisive stance against antisemitism. Your advocacy on this matter is crucial in protecting our communities and creating a safer environment for all residents in our state.

I trust in your commitment to addressing the challenges. Thank you for your attention to this pressing issue.

I am calling on the city of Santa Rosa City Council to put a ceasefire resolution on the agenda. There is a genocide happening right now in Palestine. Tens of thousands of people have died and the Israeli government has ordered the population of Gaza evacuate to Rafa a city of 25 sq miles. Prior to the evacuation the city had a population of 280,000. The city now contains more than 1.4 million people and Israel is bombing the citizens relentlessly.

The federal government is out of reach, and we need you, our direct representatives, to represent us, as they are using our tax dollars to fund a genocide.

What is happening in Palestine at the hands of Israel is nothing short of horrific. I cannot tell you how many tears I've cried for those people. Please adopt a Ceasefire Resolution. I am a Palestinian American and I believe it is a local issue to make a ceasefire resolution. I do not want my tax dollars to continue to fund Israel's indiscriminate bombing of Gaza.

Some might argue that "it's too complicated," as some sort of justification that Israel should continue using an absurd amount of weapons in Gaza. The New York Times has reported that Israel continues to use it's largest, most destructive bombs in areas marked "safe" for civilians.

It is not complicated to call for peace.

It is so important to make a local message that says we as Santa Rosa want an end to the violence. The violence perpetrated abroad informs the way violence exists in our community.

If we do utilize our democratic voice to call for a ceasefire, then we are sending a message that this violence is okay. Please use your voice and position to call for a Ceasefire Now!

Date: Monday, February 12, 2024 11:52:55 AM

To the City Council:

I write to thank you for keeping divisive resolutions about the Israel-Hamas war off of the City Council agenda. Many other cities both in the Bay Area (San Francisco, Oakland, Alameda, Santa Cruz, Palo Alto) and elsewhere have seen that debates over such resolutions are marked by antisemitic statements from the public, open hostility towards members of the Jewish community, and disruptions of meetings requiring the chambers to be cleared. Bringing this atmosphere to Santa Rosa will not benefit the public, nor the civilians in both Gaza and Israel who have been directly affected by the Hamas massacres of October 7 and Israel's response.

You will undoubtedly hear that Federal taxes paid by Santa Rosa residents which are used for aiding Israel come to nearly \$2 million per year. Even if all of those dollars were instead awarded to the City of Santa Rosa (which would not happen in any case), that would be less than 0.5% of the City's budget. And few, if any, of these same activists demanded a ceasefire resolution from the City Council when the US was using the tax dollars of Santa Rosa residents to train and equip the Iraqi Army to fight against ISIS in Mosul in 2016. This battle (also in a dense urban area) ended the lives of over 9000 Muslim civilians. Why do you think that was?

As [Mayor London Breed's statement](#) about a ceasefire resolution passed by the San Francisco Board of Supervisors noted, "Since the Board of Supervisors introduced their Gaza ceasefire resolution, and certainly since they passed it last week, our City has been angrier, more divided, and less safe. Sadly, that may have been the point. Their exercise was never about bringing people together; it was about choosing a side."

Please do not bring such resolutions or proclamations, and their attendant consequences, to Santa Rosa.

Sincerely,

Michael Harris

Dear Santa Rosa City Council Members,

I am a long time Santa Rosa Citizen and I want to implore you to put a ceasefire resolution on the agenda. We are watching a genocide unfold on our cell phones every day, paid for by our tax dollars. Every day that we continue to do nothing, we are sending a message to our children, to our neighbors, to the world, that we are complicit.

I know that this space is dedicated to local Santa Rosa City issues, but we cannot act as if we are not part of one interconnected world. For each building that falls in Gaza, there is a citizen of Santa Rosa wondering if that may have been their distant family's home. For each child blown to pieces, there is a child in Santa Rosa wondering what makes them so different. For every shot fired, my heart breaks and breaks again.

The collective punishment of Palestine is not making anyone safer, it is only introducing more violence into an already grim world. Please use your position to elevate our voices.

My name is Rachael Cutcher, and I am a Jewish resident of Santa Rosa. I am deeply concerned about the council bringing a resolution on the Israel-Hamas conflict. Bringing such resolutions only fuels hate and division within our community. As seen in other cities, these non-binding measures have led to a rise in antisemitic incidents, creating an unsafe environment for Jewish families like mine. Considering the ongoing trauma residents are experiencing, the council's time and efforts should be directed toward bringing people together rather than creating further divisions. I urge the council to reject any request and focus on fostering unity and understanding instead.

Like many Sonoma County residents, I'd really prefer that our tax dollars weren't going to fund a war/genocide (whichever you prefer to call it). You have the power to do something about it. At least a little something. Please put a ceasefire resolution on your agenda now. Be on the right side of history. Follow in the footsteps of Cotati. Subject: [EXTERNAL] Urgent Plea for Unity and Rejection of Resolution on Israel-Hamas Conflict
Date: Monday, February 12, 2024 12:51:29 PM

To the Members of the Santa Rosa City Council,

My name is Chad Herst, and I am a Jewish resident of Santa Rosa, deeply concerned about the council considering bringing a resolution on the Israel-Hamas conflict to the table. I am writing to express my strong opposition to such actions, which, based on observed outcomes in other cities, only serve to fuel hate and division within our community.

The introduction of non-binding resolutions regarding international conflicts, particularly one as complex and charged as the Israel-Hamas conflict, has demonstrably led to a rise in antisemitic incidents in other municipalities. Such measures have inadvertently created an environment of insecurity and fear among Jewish residents, affecting families like mine who call Santa Rosa home. The repercussions of these resolutions go beyond mere political statements, seeping into the social fabric of our communities and fostering divisions where there should be understanding and dialogue.

The aftermath of similar resolutions in cities like Oakland and San Francisco has been alarming, with increases in antisemitic graffiti, the vandalization of Jewish symbols, and the spread of harmful rhetoric online. These incidents have tangible effects on the safety and well-being of Jewish community members, contributing to a climate of fear and alienation.

In light of these considerations, I implore the council to reject any proposals for resolutions on the Israel-Hamas conflict. Instead, I urge you to dedicate your efforts towards initiatives that promote unity, understanding, and peace within our diverse community. Our focus should be on addressing local issues that directly impact the lives of Santa Rosa's residents, rather than engaging in symbolic gestures that only serve to divide us.

Thank you for your attention to this matter. I appreciate your commitment to making Santa Rosa a welcoming and safe place for all its residents, regardless of their background or beliefs.

Sincerely,

Chad Herst

Good afternoon,

I'm submitting a comment urging the city council to put the Santa Rosa Ceasefire Resolution that calls for an immediate and permanent ceasefire in Gaza and all Palestinian occupied territories on the agenda. When Israel was first founded, one of its primary intentions was to promote the safety of Jewish people worldwide by existing as a Jewish "homeland" and having a political influence that would benefit Jewish people. However, the existence of Israel has not made Jewish people safer – according to the FBI, in 2022 single-bias antisemitic hate crimes rose by 32% (I found this statistic on [adl.org](https://www.adl.org) and it can be looked into more on the FBI's crime data explorer website, cde.ucr.cjis.gov). As a Jewish American, Israel's existence does not make me feel safer, nor does it represent my political interests and values, as I do not think my alleged safety or wellbeing should result in the displacement and deaths of Palestinians, or any group of people for that matter. President Biden is already advising Israel against further attacks on Rafah without ensuring civilians safety, but we need to go further and ask Israel to stop all attacks and stop funding their military, like the Ceasefire Resolution asks. I am begging my city council to listen to their growing group of citizens asking to put the Ceasefire Resolution on the agenda for the next city council meeting. Please, be on the right side of history.

Thank you,

Dear Supervisors,

I am a resident of Santa Rosa, a citizen of the United States, a grandmother and a Filipino American. I urge you to put a ceasefire resolution on the agenda immediately. We cannot wait any longer as innocent people are being slaughtered.

I am ashamed of my country's continued colonial and imperialistic support of Israel's ethnic cleansing and genocide for the last 75 years. I am a retired teacher from San Francisco who learned about Palestine in the 1980s from my students whose families were dispossessed and displaced during the Nakba, the catastrophe of forced removal in 1948. These students shared their stories and family histories and I have never forgotten them.

I also recall teaching about and sharing the history of forced removal of our California Indigenous Peoples to Missions and the genocide of many tribes in California after the gold rush. My closest friends in Santa Rosa are Indigenous to this area, many without a territory of their own in their own homelands. If we look at our past, we will know that the United States is also a settler colony with an ugly, bloody past that many people are trying to erase from our history.

We live in a time where we can be courageous in the light of atrocities. We can envision a different reality from our past. To do this we must see ourselves as part of a worldwide community, which means we must see all others, regardless of nation-state, skin color or religion as equal human beings to ourselves, this includes the Palestinians that live in our community and those in their homeland. We are all connected, and the grief of this current genocide affects all of us, just as the climate crisis affects all of us.

In a county and city that values our environment, where we work locally on global issues such as the climate crisis, we must also demonstrate that locally we value all lives, here and abroad. The Santa Rosa's website announced that, "On January 14, 2020, the City Council adopted Resolution NO. RES-2020-002 declaring a climate emergency and immediate mobilization to restore a safe climate." Think about that. Addressing the climate crisis demands that different locations throughout the world must act, even city councils.

Do we only want a safe climate, or do we also want a safe world? Valuing life in all parts of the world is our responsibility, just as the climate crisis is everyone's responsibility. In Gaza, there are no safe places. In Gaza, Israel tells the people to move to a place and then those places, filled with universities, UNRWA schools, hospitals and urban neighborhoods crammed with

children and their families, are carpet bombed. Yes, our local government can make a resolution to call for a ceasefire. Other cities, even Cotati, have done so.

We can even do more! City officials can look closely at the city budget to see if any of the contracts benefit Israel's occupation of Palestine and its war machine. We can cancel those contracts. We can stand tall for the right of innocent Palestinians, especially its children, to breathe, study, laugh, play, eat, have shelter, drink clean water, get proper medical care and do all the things we can do now, today, in Santa Rosa. We must speak up now as a city before many more thousands are killed. Or will Santa Rosa just sit by in silence? Will we remain silent if even a million or more Palestinians are ethnically cleansed and forever lost to genocide? Can you live with that?

Sincerely,
Holly Calica

Dear City Council,

I am a Santa Rosa resident who drove by the demonstrating people demanding a cease fire in Gaza and waving Palestinian flags. As someone who has contributed to two different organizations working for peace in the region I worry about flag waving demonstrators- especially when the flags being waved represent only one side in a conflict. Our city has worked hard to create a respectful multiethnic interfaith community. I urge you not to endorse any resolution that would disrupt the tranquility and harmony of Santa Rosa. I am particularly concerned about our Jewish citizens and the potential for antisemitism.

Dear council members,

My name is Elliot Morrison, and I am a Jewish resident of Santa Rosa. I understand that the council is considering a ceasefire resolution on the Israel Hamas conflict. Keeping in mind that the ceasefire which existed on October 6 was broken by Hamas on October 7, it seems reasonable to me that any ceasefire resolution must contain the following 3 demands:

- 1) a demand that Hamas immediately cease all rocket fire and other forms of violence against Israel;
- 2) a demand that Hamas immediately return all hostages taken during the unprovoked attack on October 7; and
- 3) a demand that Hamas leadership immediately turn themselves over to the International Criminal Court for adjudication of the crimes of murder, kidnapping and rape against Israeli citizens.

I can support a ceasefire resolution by the council if and only if these demands are included in the resolution. Otherwise, any resolution asking Israel to unilaterally stop its actions to obtain the release of the hostages and destroy the ability of Hamas to launch further attacks, which Hamas has already promised to attempt, would be an outrage against justice and decency.

Sincerely,
Elliot Morrison

I strongly urge you to **not** to support a ceasefire resolution. The intentions of its advocates may be sincere, but the results could very well be negative.

I have never seen the American Jewish Community so frightened.

I have been active in Jewish community for over 50 years, and have never seen such terror. Every synagogue event is protected by armed guards, a sight virtually unknown in my childhood. People are frightened to wear Jewish symbols in public. Numerous conversations begin with the latest report of someone being attacked because they looked Jewish. A ceasefire resolution may be motivated by a desire for peace, but the Jewish experience is that such actions pour gasoline on the fire of Jew Hate sweeping across the world. This resolution could very well provoke conflict and divisiveness. If you care for harmony in the community you represent, please do **not** support this resolution.

Jews feel singled out

Jews feel Israel is being subject to a double standard, because:

- More than 200,000 people have died in the Yemen Civil War, a conflict in which the US is intimately involved.
- Between 500,000 and 2 million have died in Syria.
- More than a million Moslem Uyghurs are in camps in China, while hundreds of thousands of their children have been separated from their parents.
- More than 25,000 Rohingya Moslems have been killed in Burma, while a million of them have fled the country, forming the world's largest refugee camp in Burma.

Has the Santa Rosa City Council considered resolutions condemning these actions? Why not? Are the lives of Muslims in Gaza more precious than those in Syria, China, Yemen, or Burma? Passing a ceasefire resolution that specifically targets Israeli actions will only increase the sense of isolation felt by American Jews.

What about Hamas?

Please consider a resolution urging Hamas to do what the Palestinian Authority, Qatar, and other Arab countries have asked them to do: free the hostages, and lay down their arms. This is the only path to peace. Hamas leaders have promised "an eternal war" and have started five wars with Israel while in control of Gaza. Without Hamas disarming, a ceasefire perpetuates an endless cycle of violence, in which the Palestinians will suffer the most.

Respectfully,
William Finn

Hi I have lived in Santa Rosa almost all of my 60+ years. I was notified that the council was debating a resolution on the Israel-Hamas conflict.

I am concerned for a few reasons that the city is getting involved in this overseas conflict.

One it will make no difference to the war. It involves two groups that won't be listening to what the town of Santa Rosa has to say. But I feel that it WILL perpetuate my feeling of being unsafe and Jewish in my hometown. I'm actually even afraid to write this.

Two I think it's important that the city focus on issues that affect the city and its population.

Dear City Council Members:

It's come to my attention that the group Sonoma County/for Palestine is rallying people to attend your meeting tomorrow night to pressure you into a Ceasefire Resolution. (See flyer below.) I wish I were able to attend your meeting in person, but I am unable due to health issues.

I am a member of the Jewish community in Sonoma County and I believe that what has been going on in Gaza is horrendous as was the Hamas attacks on people in Israel on October 7th. I hate how intense and destructive the attacks on Gaza have been, and I am heartbroken for the innocents on both sides, **but I personally cannot support a Resolution that is so one-sided** and does not acknowledge, even in some part, the horrors committed by Hamas against innocent Israelis, and other people living in Israel. The hostages taken in to Gaza still need to be released, and Hamas needs to be dismantled so they cannot continue their genocidal attacks on people in Israel.

The Resolution this local group wants totally ignores what Palestinian members of Hamas want to achieve and that is the annihilation of all Jewish people in Israel. This local group shows no compassion for the victims of Hamas or the hostages taken from Israel from all nationalities.

A one-sided Resolution will embolden many and other less thoughtful people to attack anyone Jewish in Sonoma County, the USA or the world. It is a divisive resolution on a complex International issue, not a local issue.

The only way towards true peace is for both sides to put down their weapons and learn to live together in peace. I urge you not to succumb to the pressures of this local Palestinian group for their resolution.

I sincerely thank you for reading this letter.

I am a resident of Santa Rosa City Council District 4. As a recently retired Jewish community relations professional, I spent the majority of my 30-year career focused on coalition and bridge-building with diverse faith, ethnic and community groups to address shared values and priorities related to social justice issues including hunger, homelessness, marginalized populations, and gun violence at the local and national level. Finding common ground on an issue such as the Israeli-Palestinian conflict is inordinately difficult in the best of circumstances, and in the most stressful of periods, virtually impossible.

I am absolutely opposed to the City Council considering a ceasefire resolution directed at Israel. This is a divisive issue, nearly impossible to find common ground in limited time and conversation. It requires deep knowledge. It certainly is not an issue that the City Council has the time nor resources to devote given the tangible and real issues that require city attention. A ceasefire resolution neither supports your mission nor advances city priorities, and it certainly is not an issue that builds community and fosters the greater good in this city.

For many members of the Jewish community, concerns about the ongoing hostilities between Israel and Hamas are deeply and profoundly personal, steeped in antisemitism (the "longest hatred"), as the descendants of the victims and survivors of the Holocaust, and a religion that connects them deeply to Israel. Similar resolutions have encouraged hate speech and fostered unsafe environments. While a ceasefire might placate one segment of the local community and make it "feel good", another group will feel isolated, harassed, or endangered.

The City Council should be mindful of the use of their time and energy. The Sonoma County Board of Supervisors recognized that a ceasefire resolution which is divisive and contentious and has nothing to do with the roles and responsibilities for the County is unproductive. Follow their lead.

Thank you for your time and commitment to public service and your commitment to civic engagement.

Good afternoon-

I urge you to add a ceasefire resolution to the agenda. I am a resident of Santa Rosa, and Palestinian liberation is a deeply personal and local issue. As we watch this genocide play out, funded by our tax dollars, we also see a terrifying rise in McCarthy era censorship and legislation designed to silence dissent and maintain order. We deserve more than order, we deserve justice. Palestine deserves to live. Gaza deserve to live. A local ceasefire resolution shows the state and federal government that democracy requires listening to the will of the people who overwhelming support ceasefire and Palestinian liberation. It sends a message that we won't be cowed into submission by Islamophobia bigots that say Palestinian supporters should be investigated by the FBI. The wholesale support of a fascist right wing government puts us all at risk in the world. Being anti Zionist is not anti semitic. Being anti genocide should not be a controversial stance. My litmus test for morality is Palestine—and local leaders who avoid taking a stand will not have my vote in the future.

Please do not bring a resolution on the Israel-Hamas war.
