

Contract Award – Annual Slurry Seal 2019

City Council Meeting
June 4, 2019

Grant Bailey, Associate Civil Engineer
Transportation and Public Works

BACKGROUND

- This project will apply slurry seal to various (primarily residential) City streets.
- Streets are slurried by applying a thin, quarter-inch thick coating of liquid asphalt and sand.
- Slurry seal restores the pavement's ability to prevent water intrusion, corrects minor cracking and improves skid resistance.
- Priorities are established by the City's Pavement Management System and analysis of existing street sections.

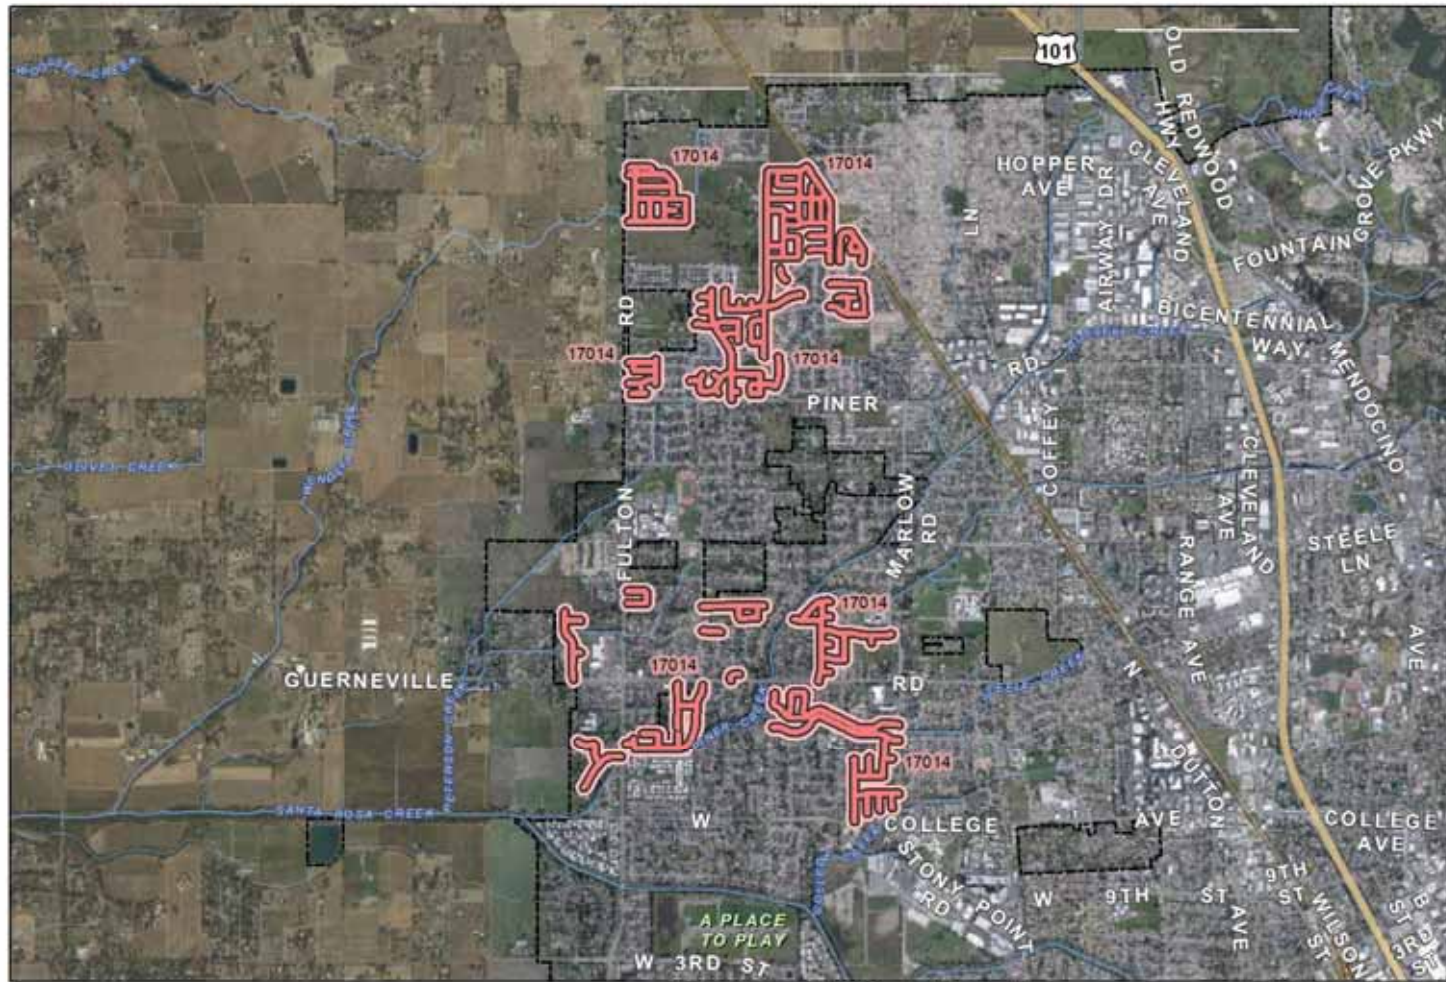

ANALYSIS

- The project was advertised on March 27, 2019, and 5 bids were received on April 17, 2019, ranging from \$489,050.00 to \$632,940.50.
- The low bid was 15.55% above the Engineer's Estimate.
- Construction is anticipated to begin in July of 2019 and last 9 working days.

RECOMMENDATION

- It is recommended by the Transportation and Public Works Department that the Council, by motion, award Contract No. C02251, Annual Slurry Seal 2019, in the amount of \$489,050.00 to the lowest responsive bidder, California Pavement Maintenance Company, Inc., of Sacramento, California; approve a 6% contract contingency, and authorize a total contract amount of \$518,393.00; effective July 1, 2019.
- Funding for this project is included in the proposed 2019/20 Capital Improvement Program Budget.
- Questions?
