RECOMMENDATION

It is recommended by the Finance Department that the City Council hold a Study Session to provide an opportunity for the City Council to receive information and ask questions relative to the condition of the Fiscal Year (FY) 2019-20 General Fund budget, the City's disaster recovery effort and its impact on the budget. No action is necessary.

EXECUTIVE SUMMARY

In this initial budget Study Session, the City Council will be presented with an overview of the General Fund, including the General Fund reserves and overall budget condition. The City Council will also receive an update on the City's disaster recovery effort and its impact on the budget, and the status of recovery projects. This Study Session will also provide an opportunity for the Council to ask for cost analyses to be performed on new projects. These cost analyses will be discussed at the next budget Study Session scheduled for May 14 and 15, for possible inclusion in the FY 2019-20 budget.

BACKGROUND

The City's budget process began in January. The City held a public hearing on budget priorities on January 29, 2019, to solicit input from the community on items to be considered in the budget. The City Council held goal setting meetings on February 22 and 23. City departments completed entry of their proposed budgets, which are under review by budget staff.
