

CERTIFICATE OF ACHIEVEMENT

Mr. & Mrs. Maricle

This award is for going above and beyond most customers to conserve water. Over many years, you have participated in multiple of our water saving rebate programs. This included: removing your lawn, upgrading your irrigation timer to a weather-based system, installing a hot water recirculating pump, buying a high efficiency washer, and getting ultra low flow toilets.

You now use over 50% less water than similar households in Santa Rosa due to these changes!

Chris Rogers, Mayor
