APPEALS PROCESS

WHEREAS, article X, section 2 of the California Constitution declares that waters of the State are to be put to beneficial use, that waste, unreasonable use, or unreasonable method of use of water be prevented, and that water be conserved for the public welfare, and further declares that it is self-executing; and

WHEREAS, careful water management that includes active water conservation and demand management measures at all times is essential to ensure a reliable minimum supply of water to meet current and future water supply needs; and

WHEREAS, Chapter 14-21 Water Waste Regulations was added to the City Code by the Council of the City of Santa Rosa (“City Council”) in 1999 pursuant to section 2 of Ordinance No. 3426, and Chapter 14-21 was subsequently amended in 2007 pursuant to section 7 of Ordinance No. 3845; and

WHEREAS, pursuant to Government Code section 53069.4, the City Council may make any violation of any ordinance subject to an administrative fine or penalty; and

WHEREAS, the purpose of the administrative fines and penalties assessed pursuant to Chapter 14-21 of Title 14 of the City Code is to assure future compliance by water customers through the imposition of increasingly significant fines and penalties so as to create a meaningful disincentive to commit future violations of the rules and regulations contained and referenced herein.

THE PEOPLE OF THE CITY OF SANTA ROSA DO ENACT AS FOLLOWS:

Section 1. The foregoing recitals are true and correct and incorporated herein.

(A) Administrative Fines. Notwithstanding any other provisions contained within the Santa Rosa City Code, the Director of Santa Rosa Water, or the Director’s designee, may impose the following administrative fines for violations of section 14-21.030. Any violation of section 14-21.030 that continues for longer than seventy-two hours shall constitute a separate violation.

(1) First violation during a twelve-month period: A written warning describing the violation and the penalties for subsequent violations shall be issued to the customer.

(2) Second violation during a twelve-month period: If 7 calendar days have elapsed from the date the written warning was issued under section 14-21.050(A)(1), a written notice of violation describing the violation and the penalty shall be issued to the customer. A penalty of \$100 shall be imposed, but this penalty may be removed from the water service bill if, within seventy-two hours after the date of the penalty notice, the customer begins actively working towards finding and fixing the leak and has provided evidence to staff of this progress.

(3) Third violation during a twelve-month period: A written notice of violation describing the violation and the penalty shall be issued to the customer. A penalty of \$200 shall be imposed.

(4) Fourth violation and any successive violations during any twelve-month: A written notice of violation describing the violation and the penalty shall be issued to the customer. A penalty of \$500 shall be imposed.

(B) Disconnection.

(B) The Director of Santa Rosa Water, or the Director’s designee, may grant exceptions for use of water otherwise prohibited by this chapter if an exception is necessary to avoid an adverse impact on health, sanitation, or safety of the applicant or the public, or to avoid undue hardship for the applicant or the public. Any exception granted shall not be broader than necessary or of duration longer than necessary to avoid the adverse effect on health, sanitation, fire protection, or safety or to avoid the undue hardship.

(C) The decision of the Director of Santa Rosa Water, or the Director’s designee, may be appealed to the Board of Public Utilities (BPU) by submitting a written appeal to the Recording Secretary for the BPU within fifteen calendar days of the date of the Director’s decision. Upon granting any appeal, the BPU may impose any conditions it determines to be just and proper. Exceptions granted by the BPU shall be in writing, and the BPU may require the exception be recorded at applicant’s expense.”
