WHEREAS, trees protect our environmental resources, reduce erosion of topsoil, cut heating and cooling costs, moderate the temperature, clean the air, produce oxygen, and provide habitat for wildlife; and

WHEREAS, trees support our City’s economic development by increasing property values, beautifying our community, and enhancing the vitality of business areas; and **WHEREAS**, the interest in strengthening community image and sense of place through the preservation of, and dedication to, Santa Rosa’s urban forest has been a major goal and commitment since the City’s founding.
