
WIFI SERVICE FOR PUBLIC AREAS

Eric McHenry
Director and Chief Information Officer
Information Technology Department
June 6, 2017

WiFi Service for Public Areas

- Implementation of the new free public WiFi service (“City of SR Public WiFi”) requires the provisioning of additional internet service at the Railroad Square and Courthouse Square areas.
- Estimated approximate rates are 1Gbps for downstream connections, requiring addition of a new circuit to be delivered by an internet service provider.

WiFi Service for Public Areas

- This bid award allows the Information Technology Department to purchase the needed additional internet bandwidth.
