MARCH 26, 2024

I was diagnosed
with cervical
Cancer. I used to
speak my phone
in my pocket during
P.E @ Cook and Elsie
High. No one in my
family was diagnosed
with cervical cancer.
I am 27 and became
cancer free with version
as my cell company.
Needs to be more research.
Please don't vote today.

Re: Cell Tower appeal

First, let me say, I am very concerned for health hazards, very substantiated for some time now, for myself and my friends living just a few feet from your proposed site #244 Colgan Ave. We residents living at Vintage Park Senior complex, which is an affordable living complex, not a low-income complex, as you are referring to the public. This really should not be an issue - all residents of Santa Rosa should be entitled to and provided a safe place to live and work and play in!

Our government here in Santa Rosa are only interested in becoming a rich, affluent area who produces the most expensive bottle of wine, in the world, and everyone who gets rich on that accomplishment!

Maybe one of your elite group will have a parent who feels the horrible health affects from your endeavor. Or, maybe, yourself!

From:	<u>Roxanne</u>

To Santa Rosa City Council,

I am writing to you regarding the Verizon Cell tower proposed to be placed on Colgan Ave.

A 69 ft tower camouflaged as a tree will stand out as exactly what it is. A tower with fake green on it.

I have seen these towers elsewhere. They don't look remotely natural.

This tower would be a constant reminder that our community doesn't matter.

That as lower income people over 62 we don't have a voice.

In our area there are also Spanish speaking residents

that have no idea this is even happening. No notice was sent out in Spanish. They too are at the mercy of corporate minds.

Our community is concerned about not just a eye sore but how radiation might affect us.

Many of my neighbors are fearful of how such a project will (or could) affect them but fear standing up for themselves will only make their life worse.

Please consider the human beings under this ~~distress~~ distress. Thank you
Rosanne Leriues
