Subject: [EXTERNAL] Sidewalk Reconstruction

Dear Mayor Schwedhelm and Council members:

Please pull Consent item 12.1 from the agenda. It is proposed that the City spend \$337,426 to reconstruct sidewalks on the east and west sides of the City Hall Complex.

This seems ill-timed to me. The City and County have an on-going discussion of uniting City and County Government buildings at the City Hall site. If this plan is carried out, the whole block will be torn up and the City's investment for sidewalk improvement will be wasted.

What I don't know is whether this work is needed because of lawsuits against the City for injuries sustained on those deficient sidewalks.

Please reconsider spending this money.

Thank you!

Anne Seeley
