

# APPROVAL OF USE OF DESIGN-BUILD PROCUREMENT FOR CHARGING INFRASTRUCTURE FOR THE CITYBUS ELECTRICAL VEHICLE FLEET ELECTRIFICATION PROJECT

City Council Meeting  
January 5, 2021

Chris Catbagan, Associate Civil Engineer  
Transportation and Public Works Department

# BACKGROUND

- California Air Resources Board requires all public transit agencies transition fleets to zero-emissions buses by 2040.
- City received grant awards from the Federal Transit Administration's 5339 Bus & Bus Facilities Program.
- Council approved participation with PG&E EV Fleet Program for battery-electric bus infrastructure.

# BACKGROUND

# ANALYSIS

- A Design-Build contract expedites project delivery by overlapping the design and construction phases, reduces project costs, and minimizes disputes between designer and contractor.
- A selection committee will review proposals and make a recommendation to award the contract to the consultant providing the best value.

# RECOMMENDATION

- It is recommended by the Department of Transportation and Public Works that the Council, by resolution, approve the use of the Design-Build method of procurement for certain infrastructure for the CityBus Electrical Vehicle Fleet Electrification Project.
