8. Intersection safety improvements including bulbouts/curb extensions, transit stop extensions, installation of pedestrian countdown or accessible pedestrian signals, or pedestrian signal timing adjustments. Striping high-visibility crosswalks or advanced stop-back lines, where warranted.
9. Purchase and installation of pedestrian traffic control devices, such as High-intensity Activated crossWalK (HAWK) beacons, rectangular rapid flashing beacons (RRFB), or pedestrian safety “refuge” islands, where warranted.
10. Projects that provide connection to and continuity with longer routes provided by other means or by other jurisdictions to improve regional continuity.
11. The project may be part of a larger roadway improvement project as long as the funds are used only for the bicycle and/or pedestrian component of the larger project.
12. Bicycle and Pedestrian Safety Education Programs. Up to five percent of a county's Article 3 fund may be expended to supplement monies from other sources to fund public bicycle and pedestrian safety education programs and staffing.
13. Comprehensive Bicycle and Pedestrian Facilities Plan. Funds may be allocated for these plans (emphasis should be for accommodation of bicycle and walking commuters rather than recreational uses). A city or county may not receive allocations for these plans more than once every five years. Environmental documentation and approval necessary for plan adoption is an eligible expense.
