Councilmember Alvarez,

Please support the Santa Rosa Greenway,  
we need more walking and biking  
infrastructure! Sonoma County also needs  
more education around safe biking habits.  
People don't understand that biking against  
traffic or crossing streets without signaling  
is so dangerous.

Dear Council members,

Please support changes to state funding requirements in order to build a mixed-use park that encourages biking & walking in SR.

This can be so important for multiple reasons. First it can provide pollinator habitat & stopover which in a county that ~~relies~~ relies so ~~heavily~~ heavily on its →

agriculture history, identity and presence.

It can provide a safe biking ~~route~~ <sup>route</sup> to downtown Santa Rosa as well as raise peoples ~~spirits~~ spirits and help their mental health. The unique shape of this park is also an asset with it spanning so many neighborhoods it could, along with other measures ~~encourage~~ <sup>encourage</sup> families with children to move in and help revitalize Santa Rosa's economy & culture.

I've seen that empty place for too long!!  
Please get this ball rolling!
