Hello Mr. Krohn - Thank you for your e-mail. I'll be happy to make it part of public record. Which agenda date and item do you want it attached to?

Dina

Ms. City Clerk,

Can you please tell me how I can get these quotes made by Lee Afflerbach from CTC Technology and Energy, a professional engineer hired by the city of Sonoma, into the public record? They were made during the City of Sonoma Planning Commissions meeting 9/12/19. The video is attached to this email along with a link to the entire meeting.

Quote 1 *"it's because so many people are [wirelessly] streaming video and other services like that, they [Verizon] have to have multiple sources for this. That's why we have the smaller cells because each [small] cell is capable of almost putting out the same energy as one macro cell."*

Quote 2 *" I have reviewed, my staff has probably reviewed several hundred of these small cells the last year, year and a half, and they are all 4G equivalent. The radios that they are using are the exact same radios that are up on the macro towers. It's not a different technology . . . the same boxes as on macro towers. I see them all the time."*
