3.1 REVIEW AND PRIORITIZATION OF ECONOMIC RECOVERY TASK FORCE EFFORTS AND DIRECTION ON EFFECTIVE ONGOING RESPONSE TO CHANGING CONDITIONS

The objective of this task force is to address current issues that are within the City's purview resulting from the pandemic and related health orders while strengthening Santa Rosa's economic recovery and resiliency for the long run. Since its first meeting on April 10, 2020, the Economic Recovery Task Force agenda has been dynamic and evolving based primarily on direct and indirect input from any and all sources, and actions that address or respond to the changing nature of the health orders. As of the June 2, 2020, council briefing, there were 30 items bucketed into five categories: current projects, potential action items, resolved items, actions that were moved to another committee, or work that could be accomplished through staff level action. Subsequent to hearing the briefing, Council took action to have the list reviewed and prioritized by Council in a public setting via a study session. This study session will provide the Economic Recovery Task Force direction on how the full Council wants current identified actions prioritized, as well as how the task force may move forward effectively in responding to continually changing conditions and acting on new ideas and opportunities.

3.2 COMMUNITY FORUM AND INPUT ON SANTA ROSA COMMUNITY EMPOWERMENT PLAN

It has been just over a month since the killing of George Floyd in Minneapolis set in motion a groundswell of global protests, including here in Santa Rosa. This study session is a forum for the community to express their grief and anger, as well as demands and desires for a better Santa Rosa. To this end, the Santa Rosa Community Empowerment Plan is a starting point for change in recognition that the City of Santa Rosa seeks to reorient efforts and change policies in a collaborative manner with the community, and particularly with our communities of color. The focus of the Plan is to engage and work in partnership with the public in a way that all community members feel they have a voice and are empowered to seek and implement a better more inclusive system. An overview of this initial plan, intent and timeline will be reviewed so that it may be modified as needed based on public input. With a repetitive loop of input, action, and analysis, it is intended that the Community Empowerment Plan be iterative and ongoing, evolving based on feedback and need.
