

to the urgent attention of  
Santa Rosa California City Attorney Teresa Stricker

Verizon needs to erect a 69 foot tall cell tower  
(telecommunications tower - monopine tree pole)  
at 244 Colgan Ave. including:  
a large microwave dish  
a 30 KW diesel generator  
13 antennas  
8 radio units  
6 surge suppressors  
6 hybrid cables  
4 outdoor equipment cabinets  
400 A PB+E service, access, utilities  
and a 6 foot tall chain link fence enclosure

the  
next  
meeting  
is  
Jan. 18 2024  
Thursday

This is entirely inadvisable and inappropriate  
in such a highly populated area.

It is a clear imminent obvious danger / threat  
to the health, safety, welfare of thousands  
of people that would be adversely effected  
currently and in the future.

This includes all the hundreds thousands  
of people who shop at / patronize the many  
businesses at Santa Rosa Market Place -  
(shopping center / mall) - and all the  
other businesses in the immediate vicinity  
i.e. Costco  
Best Buy  
Target  
etc, etc, etc,

contid.

and all the many residents who reside  
in the immediate and nearby vicinity —

i.e. Vintage Park Senior Apts.

La Esplanade Apts,  
Colgan Mobile Home Park  
Best Western Motel  
Several houses / homes  
etc.

I ask that you read the book  
The Body Electric, review the applicable  
scientific literature, confer with  
cardiologists, neurologists, <sup>hematologists</sup> immunologists, etc  
re: the hazards.

Surely you would not want this equipment  
in the immediate vicinity of your home  
— front yard, back yard, or across the  
street from your home.

Therefore I ask that you respect  
— and protect — the persons who reside  
in the vicinity of 344 Colgan Ave  
and those who shop at Santa Rosa Market Place  
— Costco, etc.

I ask that you confer with the Planning  
Commission to not grant the

Verizon application no. PRJ 23-009.

No amount of money can suffice <sup>compensate</sup> for the  
purposeful, intentional, unnecessary harm of  
oz to human beings. For the city of Santa Rosa  
to be complicit surely has liability repercussions.  
Thank you for your time and attention to this <sup>important</sup> urgent matter.

Submitted by  
a concerned citizen  
on behalf of the many many  
people that would be adversely  
effected if this application  
would be granted.

I prefer to remain  
anonymous for privacy reasons  
and because I do not want  
to suffer any retaliation from  
Verizon or anyone else.

I hope you understand  
and appreciate that,

Thank you.
