

RESOLUTION NO. RES-2019-017

RESOLUTION OF THE COUNCIL OF THE CITY OF SANTA ROSA APPROVING THE DESIGN-BUILD METHOD OF PROCUREMENT FOR THE REMOVAL AND REPLACEMENT OF AUDIO/VISUAL SYSTEM IN THE UTILITIES FIELD OPERATIONS BUILDING TRAINING CENTER

WHEREAS, in January 2014, the City Council adopted Ordinance 4021, which established regulations for the award, use and evaluation of design-build contracts; and

WHEREAS, Section 3-60.130 requires the City Council to approve the use of the design-build method of procurement for major contracts if it determines that the use of this method is in the best interest of the City; and

WHEREAS, the existing audio/visual (A/V) system was installed in the City’s Utilities Field Operations building training center in 2010 and has reached the end of its useful life; and

WHEREAS, this project will benefit from a design-build contract because there are many A/V equipment contractors, each of which may present different design and construction solutions; and

WHEREAS, by utilizing a design build procurement, value is added by allowing a single contractor to evaluate cost relationships between various project components to achieve the most optimal design solution to meet the City’s needs.

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Santa Rosa approves the use of the design-build method of procurement for the removal and replacement of the audio/visual system in the City’s Utilities Field Operations building training center at 35 Stony Point Road as in the best interest of the City.

IN COUNCIL DULY PASSED this 12th day of March, 2019.
