WHEREAS, the study, in its final form, did not identify any significant effects on the environment which would result from the proposed project provided certain mitigation measures therein identified and listed were adopted and implemented; and

WHEREAS, the Environmental Coordinator, based on the Initial Study, determined that any potential environmental effects of the proposed project have been clearly mitigated by the identified mitigation measure to the point where no significant environmental effects would occur and the Environmental Coordinator, based upon this determination, prepared a Mitigated Negative Declaration, subject to mitigating requirements, with respect to the environmental consequences of the subject project; and
