California Fair Maps Act

Open and Fair redistricting process

The Fair Maps Act passed by the Legislature mandates a set of criteria we must follow when drawing district plans.

- Relatively equal size - people, not citizens
- Contiguous – districts should not hop/jump
- Maintain *"communities of interest"*
- Follow city and census designated place boundaries
- Keep districts compact – appearance/function

REDISTRICTING PARTNERS

From COI to Maps

With more cities and counties using community-based redistricting, we move redistricting out into the public, with maps driven by Community of Interest testimony.

- **Input from community drives process** with multiple ways for the public to engage.

- **Rules for process** emphasize the importance of traditional criteria and minimizing divisions of neighborhoods.

- **Releasing maps for feedback** – today we will see plans to spark more public engagement.
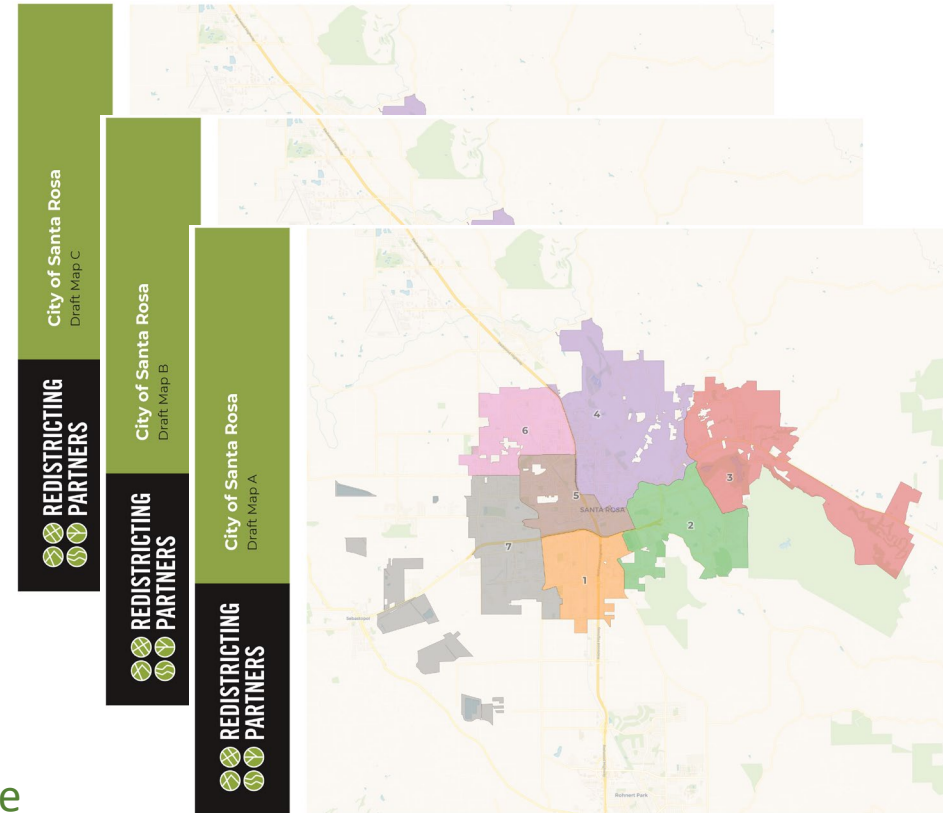

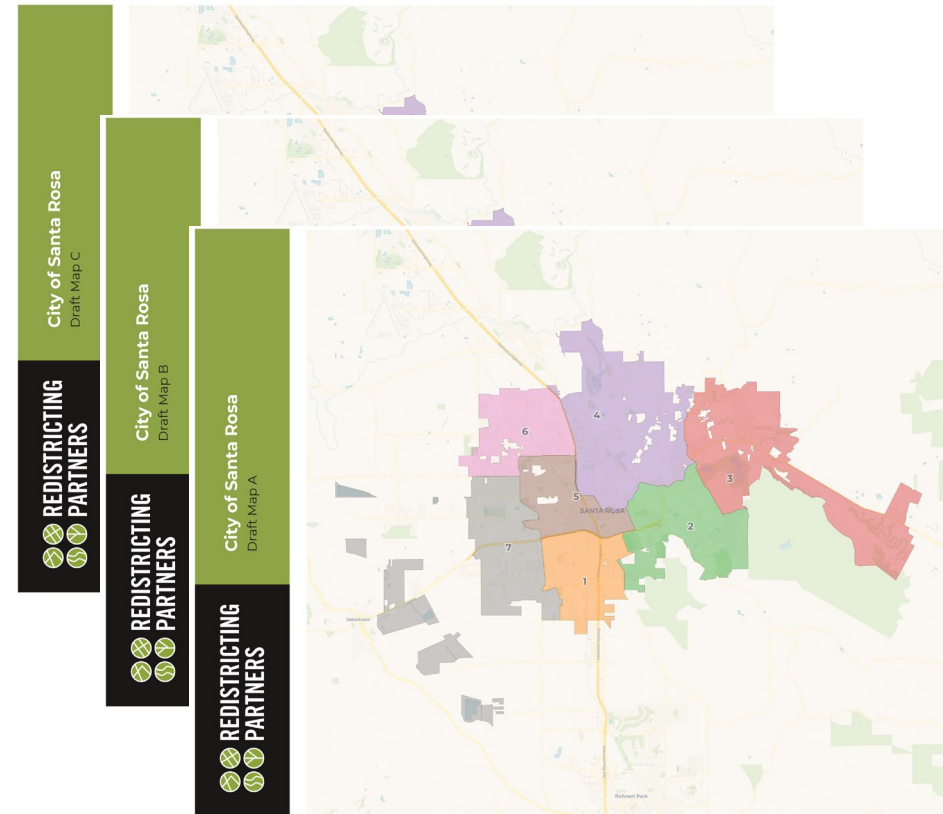

Maps to Review

There are three plans to review and approve for release as draft maps for the public:

- **Plan A**

- **Plan B**

- **Plan C**

Each plan has an overview, data table, individual district pages and web map that has been provided to the district and is available on the city redistricting website.

What's Next

The City Council can make use of these mapping options in a number of ways.

- **Identify preferred plan(s)** with an understanding that none of these are final plans. *It is an iterative process.*

- **Suggest possible changes** –adjustments can be made to any of the draft plans.

- **Provide direction** for the preparation of **new draft map(s)** to be put out for public input and future review and adoption.

- Consider new draft maps at a public hearing scheduled for the next regularly scheduled Council meeting.
