

Llano Trunk Rehabilitation Phase 1 Authority to Issue Design-Build Request for Proposals

August 18, 2022

BPU Meeting

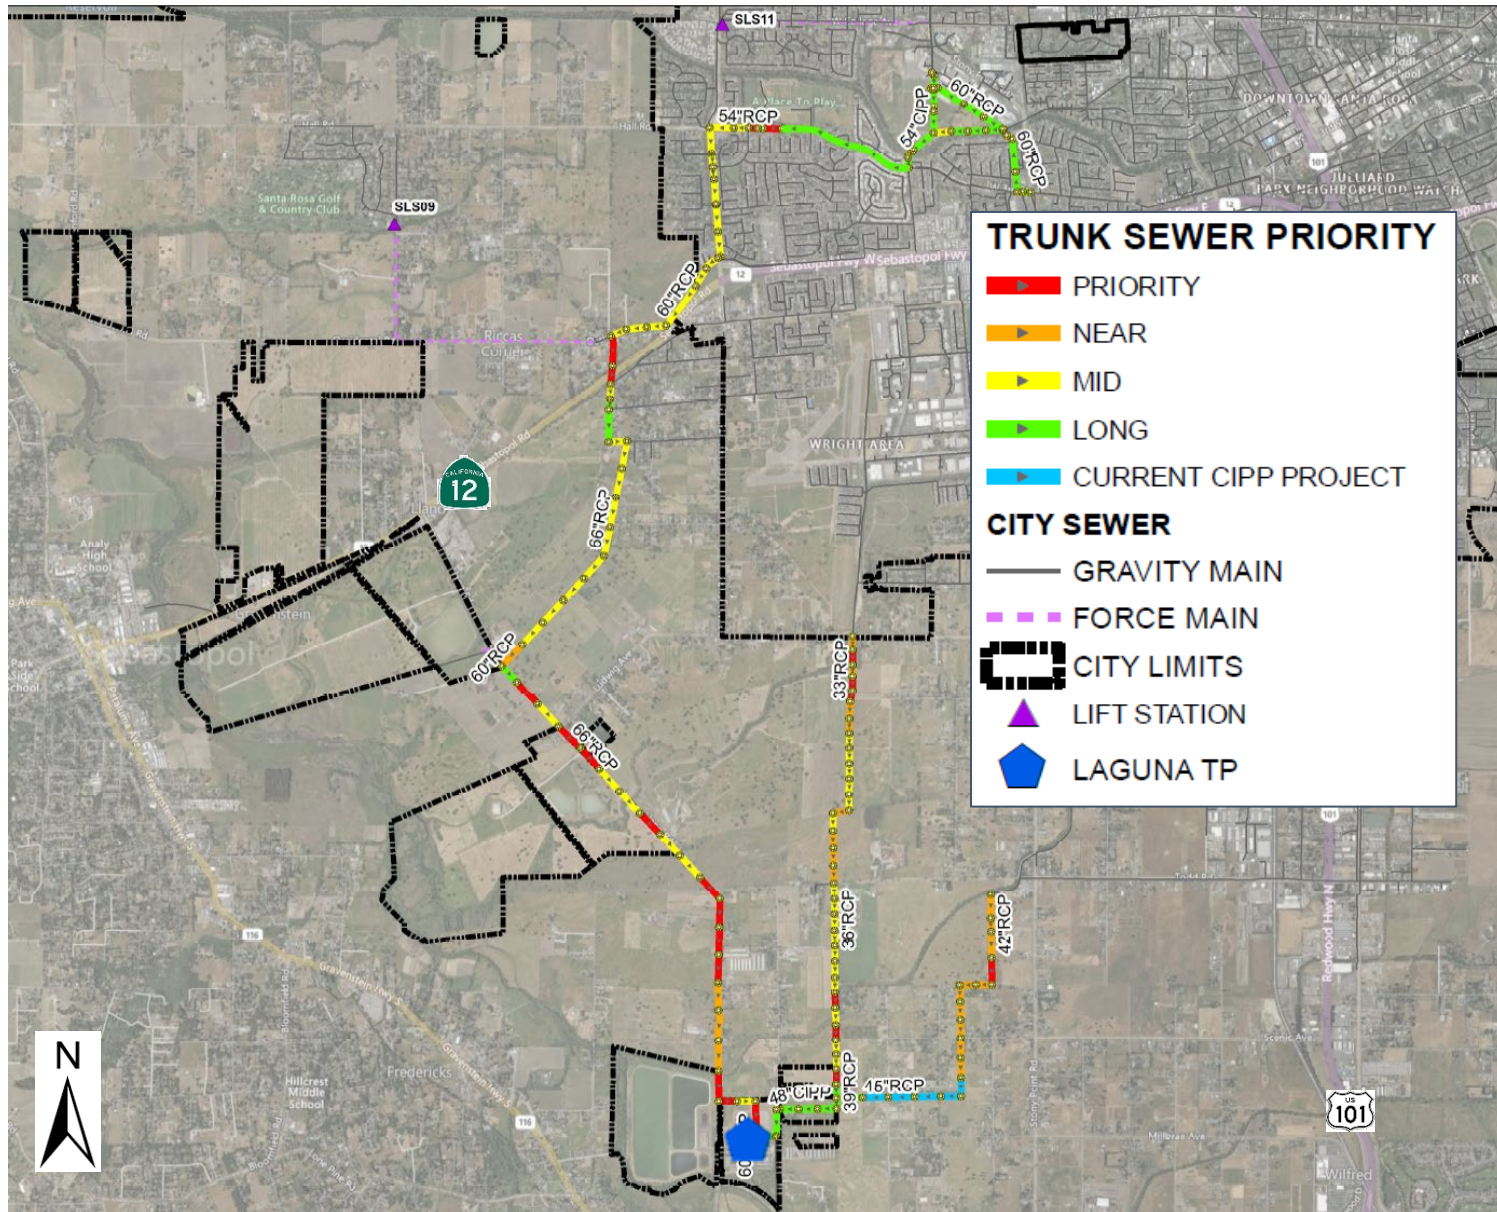

Richela Maeda, Associate Civil Engineer
Transportation and Public Works

Presentation Outline

- Project Background
- Design-Build Background
- Analysis of Design-Build
- Recommendation

Project Background

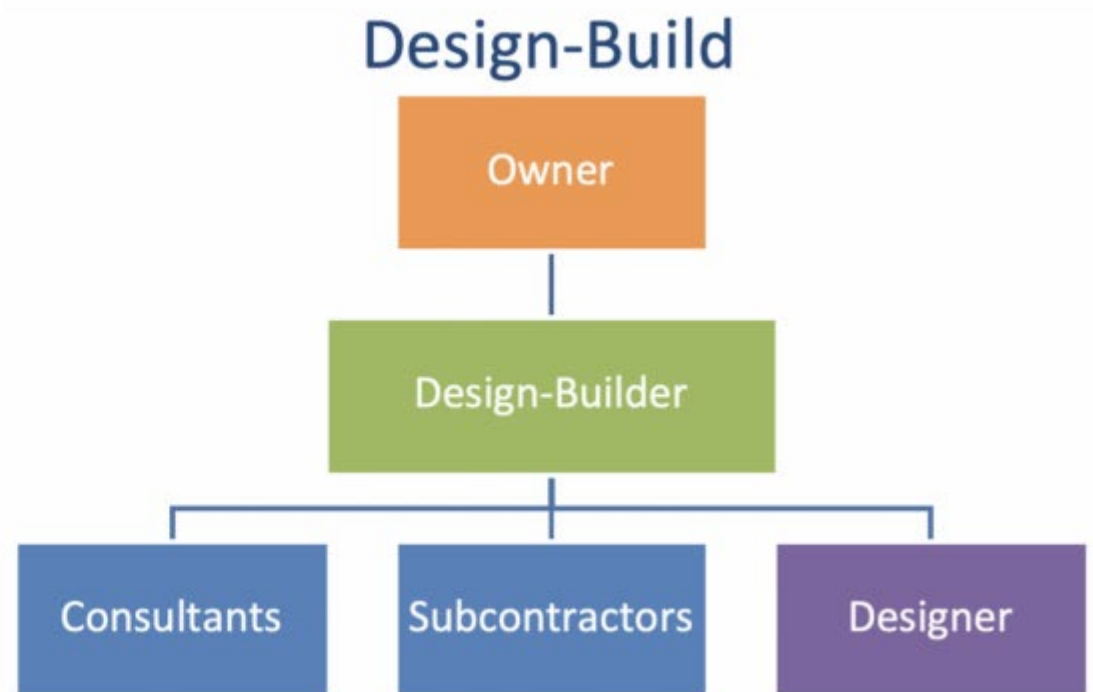

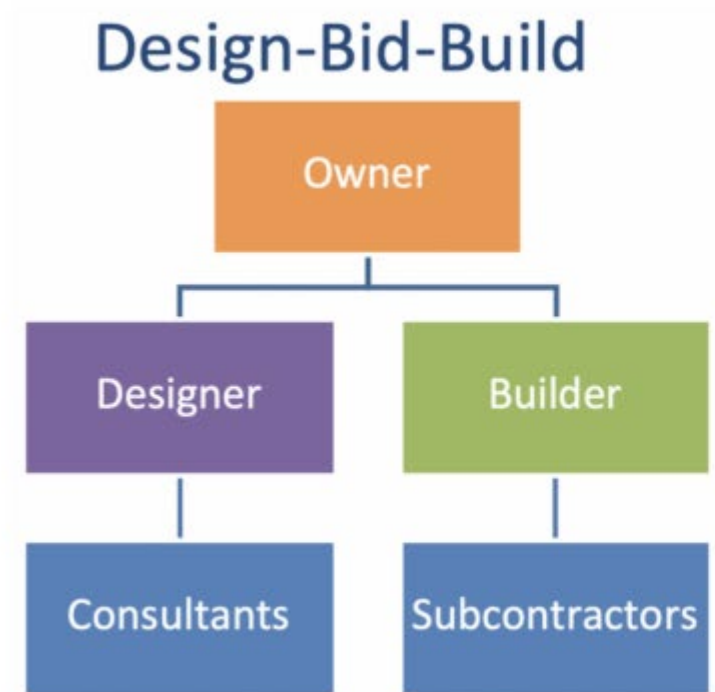

Project Background

Llano Trunk – Phase 1

- 7,500 LF of 66-inch pipe
- 12 manholes
- 16 million gallons per day
- Permits

Design-Build Background

Analysis of Design-Build

- Ordinance 4021 adopted in 2014
 - Board approval required for major contracts
- Selection committee for recommendation
 - Two-step process
- Increased upfront collaboration
 - City, designer, and contractor from the start
 - More buildable & innovative project

Recommendation

It is recommended by the Transportation and Public Works Department and the Water Department that the Board, by motion, authorize issuance of a Request for Proposals for the Design-Build procurement method for the Llano Trunk Rehabilitation Phase 1.
