

CERTIFICATE OF ACHIEVEMENT

Richard Lane

Richard Lane has been a promoter of water use efficiency in the Coffey Park community as a Coffey Strong Block Captain. In addition to efficient fixtures in his home, he installed a low water use landscape, 5,000 gallons of rainwater storage, and a graywater system that uses water from his clothes washer and fixtures from his bathroom to irrigate his landscape. Richard's water conservation efforts are estimated to save over 32,500 gallons a year!
