The Project would develop a residential land use that is undertaken to implement, and is consistent with, the Roseland Area/Sebastopol Road Specific Plan. Furthermore, the proposed project has been found to be consistent with the Santa Rosa General Plan and complies with all Zoning Code requirements. Review of the project has revealed no significant environmental impacts which are peculiar to the parcel or to the project and which were not addressed in the General Plan EIR, nor is there any new information that shows that any environmental impacts will be more significant than as described in that EIR.
