Plan View

THIS LIGHTING APPLICATION REQUIRES SPECIFIC LIGHTING CONTROL DEVICES OR SYSTEMS PER CALIFORNIA TITLE 24 PART 6.

Therefore, this proposal includes:

- SOLUTION: This proposal includes a complete lighting and control system either as an alternative to that specified, or as a recommendation based on the information provided, subject to your review and approval.
- SUPPLEMENT: This proposal includes lighting as requested/specified, as well as a proposed lighting control system for your review and approval.
- ALERT: This proposal includes only lighting as requested/specified. However, the application hereby requires compatible lighting controls to meet the following criteria. We are happy to provide a lighting control questionnaire at your request.

Manual Switch(es)
Automatic time switch (astromerical)
Occupancy Sensor(s)
Photoelectric(s) (daylight sensor(s))
Demand response / load shedding
Controlled Receptacle(s)
Motion Sensor(s) - Outdoor

Ceiling Height: Varies
Luminaire Mounting Height: As noted
Calculation Point Height: As noted

Luminaire illuminance values provided in this report, whether for normal, critical, or emergency applications, are for product application assistance only. These values were developed in collaboration with, and are subject to approval by, the design professional of record (architect/engineer/LC), and are NOT intended for construction. Because these values are approximate and based on limited application information provided to 16500, Inc. at the time of calculation, 16500, Inc. does not warrant the installed performance of the luminaire(s) will match that shown in this report. Please verify all data and conditions to assure the accuracy of the report. 16500 shall neither be responsible nor liable for design, approval, or results of emergency lighting under any circumstance.

Symbol	Label	Quantity	Manufacturer	Catalog Number	Description	Lamp	Lumens Per Lamp	Light Loss Factor	Wattage
