

Contract Award – Annual Slurry Seal 2018

City Council Meeting
June 5, 2018

Supervising Engineer, Transportation and Public Works

Stephen Dittmer

BACKGROUND

- This project will apply slurry seal to various (primarily residential) City streets.
- Streets are slurried by applying a thin, quarter-inch roadway coating of liquid asphalt and sand.
- Slurry seal restores the pavement's ability to prevent water intrusion, corrects minor cracking and improves skid resistance.
- Priorities are established by the Pavement Management System and analysis of existing street sections

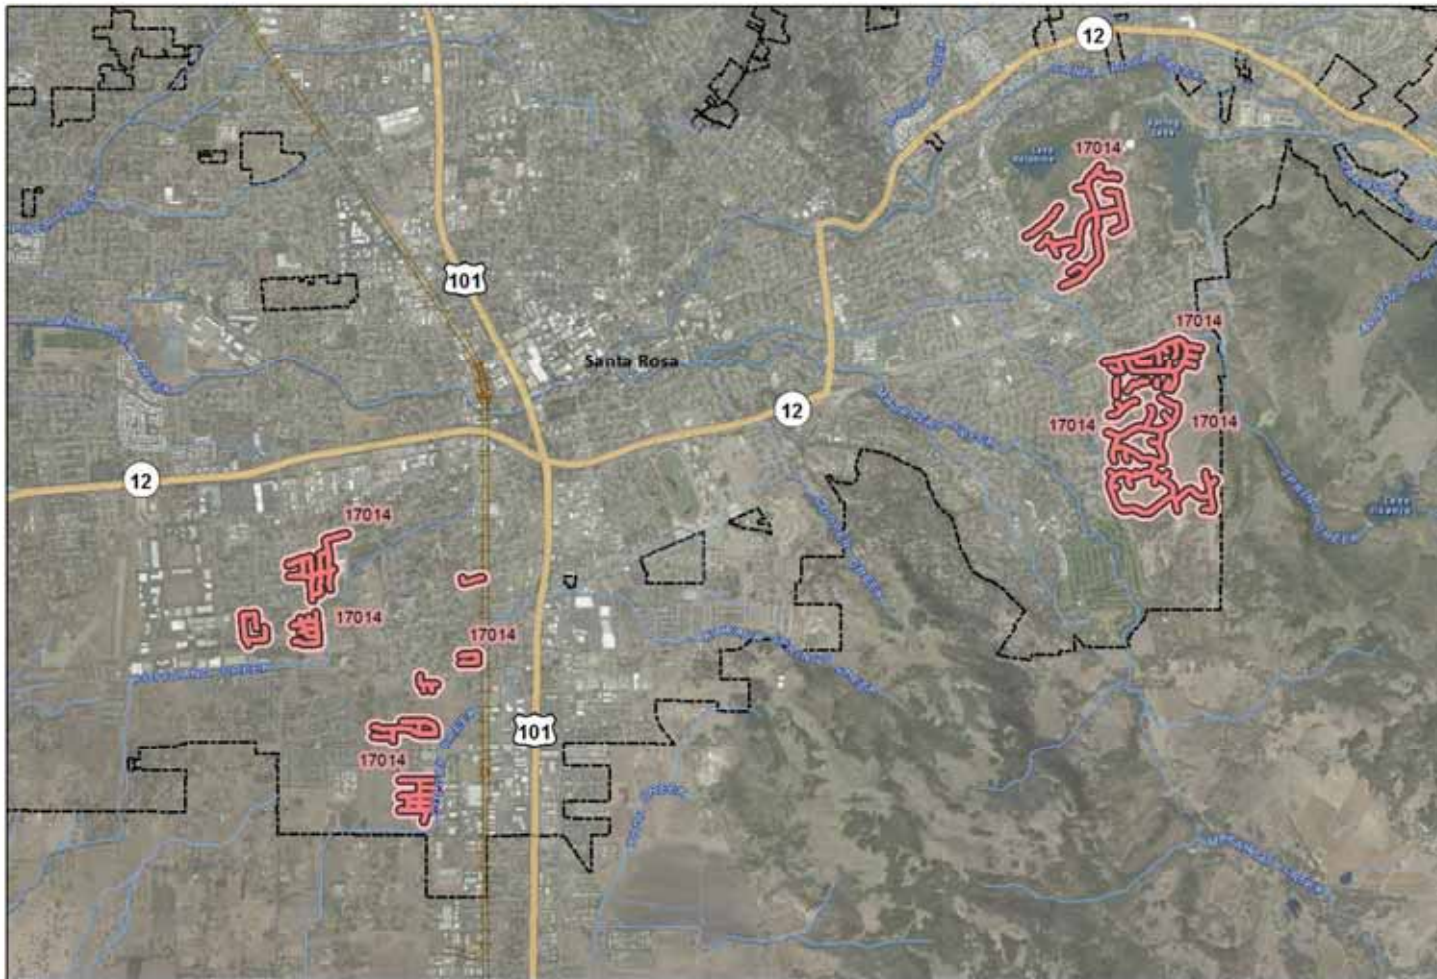

ANALYSIS

- The project was advertised on 4/2/18; seven bids were received 4/19/18, ranging from \$381,404 to \$470,990
- The low bid was 9% above the Engineer's estimate
- Construction is anticipated to begin in July of 2018 and last 9 working days

RECOMMENDATION

- It is recommended by the Transportation and Public Works Department that the Council, by motion, award construction Contract No. C02180, Annual Slurry Seal 2018, in the amount of \$381,404.00 to the lowest responsible bidder, Telfer Pavement Technologies, LLC of McClellan, California, approve a 10% contract contingency, and authorize a total contract amount of \$419,544.40.
- Questions?
