

# UFO Audio Visual Design-Build Contract Award

City Council Meeting  
October 01, 2019

Eric McHenry, Chief Information Officer  
Information Technology Department

# CURRENT

- System installed in 2010 and is beyond its useful life.
- This facility serves as the secondary Public, Education and Government (PEG) and acts as the Emergency Operations Center (EOC) for the City of Santa Rosa.

# PROPOSED

- Remove and replace existing system with latest technology.
- PCD, Inc., Santa Rosa, CA was found to be the best value for City upon completion of Request for Proposals 19-16.

# BENEFIT

- New system will meet current and future meeting needs
- New system will utilize the most current technology and design to improve the meeting experience and increase usability for ADA.

# RECOMMENDATION

- It is recommended by the Information Technology and Finance Departments, that the Council, by resolution, award a Design-Build Contract, Number F001997, to PCD, Inc., Santa Rosa, California, for the removal of the existing audio/visual (A/V) system, to deliver the design-build plan of a new system, and provide installation of the new system at the Utilities Field Operations (UFO) building at 35 Stony Point Road, for a total amount not to exceed \$412,191.84.
