Subject: [EXTERNAL] Support for Zero Waste Master Plan

Dear Mayor Schwedhelm, Vice Mayor Fleming and Councilmembers Sawyer, Rogers, Olivares, Tibbetts and Dowd,

Thank you for your consideration of the Zero Waste Master Plan. I am unable to attend the Council meeting today in person but I hope you will pass the Zero Waste Master Plan and dedicate resources to it's implementation. I also ask that you pass the [Disposable Food Service Ware and Polystyrene Foam Ban Model Ordinance](#) written by Zero Waste Sonoma.

I both live and work in Santa Rosa and believe it is important for us to reduce our impact on the landfills and the earth. There can be much improvement to the current practices of disposable food service ware and this is an important step forward.

Thank you,
Carolyn Glanton

Dear City Council and Staff,

I worked on the initial Zero Waste initiative that was later adapted and adopted by the City Council. I fully expect (and appreciate) that you will dedicate necessary funds for staff to implement this program. I also urge you to pass the Disposable Food ServiceWare and Polystyrene Foam ban. Together we are making progress, thanks to your openness and commitment to doing what is best for our community.

With gratitude,

Anne Jacopetti

Subject: [EXTERNAL] Zero Waste

Santa Rosa City Council and Manager,

Since the climate crisis which threatens us is multi-dimensional, the solutions must be multi-faceted and integrated in order to be effective in reaching Net Zero.

Even without the drought and conditions which brought on the fires, waste is a global problem and its disposal contributes to the greenhouse gasses which plague the planet.

Since Climate Action is a Tier 1 priority of the Council, the goal of Zero Waste should be included as a priority.

I hope we can count on your support of ZW and the Disposable Food Service War and Polystyrene Foam Ban Model Ordinance and thank you for your prior votes for climate action.

Respectfully,

Tony White, Alliance for a Just Recovery and North Bay Jobs with Justice.

Subject: [EXTERNAL] zero waste for Santa Roas

Dear City Council Members,

Please adopt the Zero Waste Master Plan for Santa Rosa. Provide support for this plan by dedicating funding and staff for rapid implementation and robust, effective future development.

Additionally, prioritize Climate Action as a component in **all** decision-making from this moment on.

First steps should include:

Passing the Disposable Food Service Ware and Polystyrene Foam Ban Ordinance.

Revisiting and updating Santa Rosa's Urban Forest policies

Dedicating funding and staff to the development of a green design and practice policy in all civic projects starting now. Expand this policy to private sector development and fire reconstruction.

Santa Rosa could be an example of a small city leading the way to a green future by prioritizing Climate Actions and throwing off current and past entanglements that emphasize profit over the long view.

Sincerely,

Robin North

Subject: [EXTERNAL] Please support the Santa Rosa Zero Waste Master Plan

Hello,

I know that the Santa Rosa City Council will have a presentation on their Zero Waste Master Plan at their meeting on **Tuesday, January 28th and I just want to say how critical this plan is and how it will lay the groundwork for implementing Zero Waste goals across the county.**

The disposable culture is based upon a linear economy where resources are abundant and have no limitations - this completely unsustainable and not a good long term plan for our community. The Central Landfill has an estimated 24 years of capacity left, and we must consider this a wake up call to re-envision how we approach waste and our relationship with it. I want to urge the council to support Zero Waste and Climate efforts by dedicating funds and staff time to implementation. Please choose equitable Climate Action as a Tier 1 Priority and implement the Zero Waste plan as part of this priority. Also, I would like to urge you to pass the [Disposable Food Service Ware and Polystyrene Foam Ban Model Ordinance](#) in order to have a complete Zero Waste plan for the City of Santa Rosa.

I am so happy to hear that the City of Santa Rosa is putting Zero Waste on the forefront and prioritizing it as a goal to create a healthier and more mindful city.

Have a nice day,
~Marie K.

Hello City Councilmembers,

I am so pleased that a Zero Waste Master Plan has been created and will be discussed at this week's meeting. This plan is the critical next step for our county's waste management needs.

Please support zero waste! Choose equitable Climate Action as a Tier 1 Priority and pass the Disposable Food Service Ware and Polystyrene Foam Ban Model Ordinance.

Thank you for modeling what sustainable looks like.

Sincerely,
Susan Price

re: Polystyrene Foam Ban

Dear Mayor Behwedhelm and city council members,
I am writing to you so that you can make a change in my world and please pass the Disposable Food Service Ware and Polystyrene Foam Ban Model Ordinance to reduce waste and decrease greenhouse gases. I am really invested in addressing the climate change crisis and I really think that Polystyrene is one of the major contaminants because of how long it takes to decompose. I think we should be the example and start making a change in this world.

Sincerely,

Maria Valverde

Address: 1931 Biwana Drive

Santa Rosa CA 95407

re: Polystyrene Foam Ban

Dear city council members,

Please pass the Disposable food service ware and Polystyrene Foam Ban Model ordinance to reduce waste and decrease green house gases. I know that it takes a long time for polystyrene to decompose and sooner or later it ends up in the ocean where animals mistake it for food and die. so this needs to stop.

Sincerely, Mireya Dros

Address: 1931 Biwana Drive Santa Rosa,
CA. 95407

re: Polystyrene Foam Ban

Dear Mayor Schwedhelm & city council members,

I am reaching out to encourage the ban of polystyrene foam. I think it is a great way to reduce waste. I understand that this will affect many businesses because polystyrene foam is cheap. Maybe we can find a way to make the eco-friendly alternatives more affordable. Climate change is real and we need to start thinking about our future.

Sincerely,

Egle Perry

Address: 1931 Biwana Dr.

Santa Rosa, CA 95407

re: Polystyrene Foam Ban

Dear Mayor Schwedhelm and city council members,

Please pass the Disposable Food service ware and Polystyrene Foam Ban model Ordinance to reduce waste and decrease greenhouse gases. I believe we should do this because we need to start to make changes to help us the kids future. If in other places near us can do this, I think we can too. We can all do this little change to help improve our world.

Sincerely,

Address: 1931 Biwanda Drive
Samantha Ponce Santa Rosa, CA 95407

re: Polystyrene Foam Ban

Dear City Council Members, I believe that we should reduce the use of this foam and start using cardboard items. The reason of my choice is because cardboard disintigrates fast and foam does not and that foam is left all through out the city and its hurting the enviornment. We care about our planet and its health, we should pass the law that no store or restruant is allowed to use foam items to conserve the future of ourself and the ones to come.

Sincerely,
Yahir Varquez

Address: 1931 Biwanna Drive
Santa Rosa, CA 95407

re: POLYSTYRENE FOAM BAN

DEAR MAYOR SCHWEDITELM AND CITY COUNCIL MEMBERS,

PLEASE PASS THE DISPOSABLE FOOD SERVICE WARE AND POLYSTYRENE FOAM BAN MODEL ORDINANCE TO REDUCE WASTE AND DECREASE GREENHOUSE GASES.

I CARE ABOUT REDUCING WASTE AND ADDRESSING THE CLIMATE CRISIS BECAUSE IT HURTS MY FUTURE AND WELL-BEING. IT HURTS OUR ANIMALS AND OUR LAND. OUR STREETS ARE UNSANITARY ENOUGH FOR THIS TYPE OF DEBRIS TO KEEP COVERING IT.

Sincerely,
GENESIS RAMIREZ,
ROSELAND UNIVERSITY PREP

Address: 1931 BIWANA DRIVE
SANTA ROSA, CA 95407

re: Polystyrene Foam Ban

Dear Mayor Schwedhelm and the City Council members,

Please pass the Disposable Food Service Ware and Polystyrene Foam Ban Model Ordinance to reduce waste and decrease green house gasses. Polystyrene Foam takes a very long time to decompose and can also affect the animals that consume the foam. Switching to a more environmental friendly material then we can decrease the effect on animals and the environment.

Sincerely,
Alejandro Flores

re: Polystyrene Foam Ban

Dear Mayor Schwedhelm and city council members,
We need to reduce the amount of Polystyrene foam in the world. This has become a serious issue because this type of material is very hard to decompose. People have been using this material for restaurants and it's been occurring for many years but I believe we should all come to a conclusion that we should no longer use it. We can replace this material with something that does decompose and can also work for restaurants but most importantly does good for our Planet.

Sincerely,
Angelica

re: Polystyrene Foam ban

Dear Mayor Schwedhelm and City Council members,

Please pass the Disposable Food Service and Polystyrene Foam Ban Model Ordinance to reduce waste and decrease greenhouse gas.

This has to be passed in order to start helping our world, when this goes into the ocean it is getting dissolved very slowly and our own animals are eating it and harming themselves.

Sincerely,

Aylin Lue

re: Polystyrene Foam Ban

Dear Mayor Schwedhelm and city council members:

I believe that if we're all determined to act on the drastic climate changes, we should pass the Disposable Food Service Ware and Polystyrene Foam Ban Model Ordinance to reduce waste and decrease greenhouse gases. This ordinance would benefit our planet, and especially our real life.

Sincerely,
Yanaira Hernandez
