The SRP GSA is a self-funding agency, formed by law in 2017 to carry out the mandates of the Sustainable Groundwater Management Act of 2014. Now that the GSP has been formally adopted, a five-year rate study has been pursued by the SRP GSA to determine the fee amounts necessary to implement the GSP. A revised groundwater sustainability user fee of \$36-\$44 per acre foot of groundwater extracted annually is proposed for five years.
