Please DO NOT use synthetic herbicides, especially Roundup in public places.  
Thank you,  
Janet Greene

Dear Council Members,

It was impressive when you voted to discontinue the use of synthetic herbicides for routine landscape maintenance for Santa Rosa.

It is not at all impressive that you allowed synthetic herbicides to be used again because of money??

I ask that you stop using these dangerous chemicals once and for all. It is short sighted when we know they cause serious chronic health problems for the community. I can't imagine being the job supervisor who tells employees to handle and administer this poison.

Best regards,

Carol Vena-Mondt
