EXECUTIVE SUMMARY

The Transportation and Public Works Department submitted a request to Purchasing for the purchase of two (2) 2020 or Newer Class 5 2WD DRW Standard Cab and Chassis with 9FT 3-4 Yard Dump Body.

BACKGROUND

Under the City's guidelines for replacement of fleet vehicles, the Transportation and Public Works Department (TPW) Fleet Maintenance Division selects a vehicle for replacement when it has reached the end of its cost-effective life cycle. These vehicles have met the replacement criteria using a point system, an industry standard to predict when best to sell a vehicle. Repair costs, age, and mileage are considered in the point calculation performed by our Faster Fleet software system.

This purchase will replace the following City vehicles below:

- 14818 – 67,352 Miles, Utilities Field Operations, Collection System Repair
- 14602 – 112,687 Miles, Utilities Field Operations, Collection System Repair
