At the June 24, 2021, Planning Commission meeting for the project's Conditional Use Permit review, which is referenced in the Subject Line of this email, the Planning Commission made the recommendation that Planning Staff forward the Commission's recommendation to the Design Review Board to consider a Condition of Approval to regulate maintenance of the proposed use. The Condition of Approval is to set parameters of ongoing maintenance to ensure the project remain safe, secure, and aesthetically pleasing. Staff will reiterate this recommendation during the presentation at tonight's meeting.
