PROPOSAL

The Police Department is proposing to install a solid, metal perimeter fence around the parking lot at 950 Sonoma Avenue and 125 Brookwood Avenue. At the request of the neighbors along the western boundary of the parking lot, the fence is planned to be six feet tall along the west elevation and will be eight feet tall on all other elevations. Vehicular and pedestrian access will be through electric gates along Sonoma Avenue. Pursuant to City Code [Chapter 20-10, Purpose and Effect of Zoning Code](#), Section 20-10.050(G), City projects are not subject to the entitlement process. However, while an entitlement permit is not required, Concept Design Review is.
