### 5. STAFF BRIEFINGS

#### 5.1 AGRICULTURE USER GROUP UPDATE

Staff will provide an update on the work being performed with the Agricultural User Group. City Staff and the Agricultural User Group have been working together to provide agricultural users the ability to participate in the rate setting process and provide feedback on the recycled water use program. The update will include the information that has been previously shared with the group and ongoing discussions. The Board may discuss this item and give direction to staff.

#### 5.2 PRODUCER RESPONSIBILITY LEGISLATION FOR UNUSED MEDICINES AND SHARPS - WHAT PASSAGE OF SB 212 MEANS FOR SANTA ROSA REGIONAL WATER REUSE SYSTEM

In September 2018, California Governor Jerry Brown signed Senate Bill

212, the first state law in the nation requiring producers of medications and sharps to design, operate and fund a safe and convenient collection program for both home generated needles and unused medications. The Extended Producer Responsibility legislation was the result of unsuccessful efforts to work with the pharmaceutical industry on issues regarding the disposal of unused medications. Subsequently, a number of local safe medicine disposal ordinances were developed throughout the state which spurred the development of the proposed statewide legislation SB 212. This presentation will address how the adoption of SB 212 will affect the City's current Safe Medicine Disposal Program and discuss interim measures prior to full implementation of the new extended producer responsibility requirements. The Board may discuss this item and give direction to staff.
