

PARKING UPDATE

Downtown Subcommittee
December 7, 2021

Alan Alton, Acting CFO
Finance

Parking

- Monthly transactions ~65% of pre-COVID

	2021	2019
• On Street:	63%	64%
• Lots:	15%	16%
• Garages:	22%	20%

- Estimate Fee Reductions 7/1/20-12/31/21
 - \$835,000

Courthouse Square Occupancy

- 42 metered spaces all available to general public
- 4 of those spaces also available for EV charging

Courthouse Square Parking Occupancy: Jan - Oct, 2021

Garage EV Charging

- 5 EV chargers, spaces exclusive to charging
- 10% utilization
Less than 1 charge/device/day
- Garage data suggests converting spaces to EV charging only in Courthouse Square would result in the spaces sitting idle and unused most of the time.

Recommendation

- Keep the EV charging spaces in CHSQ as is; open to the general public
- Aligns with Parking Division's goal of maximizing the parking supply and supporting downtown
