Subject: [EXTERNAL] SR CC Agenda - Jan. 25, '22 = 14.3 REPORT - ROSELAND CREEK COMMUNITY PARK MASTER PLAN
Date: Monday, January 24, 2022 3:18:58 PM

Dear Stephanie and City Mgr. Smith,

Pl. add my comments into the record re 14.3 REPORT - ROSELAND CREEK COMMUNITY PARK MASTER PLAN: RESCISSION OF MITIGATED NEGATIVE DECLARATION AND PROJECT APPROVALS AND DIRECTION FOR PREPARATION OF ENVIRONMENTAL IMPACT REPORT BACKGROUND: The Roseland Creek Community Park is approximately 20 acres in size, located in southwest Santa Rosa on McMinn and Burbank Avenues, across Burbank Avenue from Roseland Creek Elementary School.

Please consider the complete impacts of this project and conduct an EIR on these construction projects. Paved parking lots and roads are counter-productive in this natural area that many of us for years have fought to preserve. Run-off from automobiles and trucks into Roseland Creek would pollute plus the air from the vehicle emissions of hundreds of cars per day coming into the natural area. Please do a valid Greenhouse Gas assessment.

Thank You,

Marsha
