The Contractor shall provide the necessary equipment and personnel for hauling biosolids generated at the Laguna Wastewater Treatment Plant. Contractor personnel must be able to fluently speak and understand the English language, or Contractor must provide a translator to ensure that information regarding scheduling, transportation and drop off location directions for the biosolids is understood. The biosolids will be transported to the Redwood Landfill disposal site located in Novato, California and/or other disposal sites as deemed necessary by the CITY.

The Contractor shall haul dewatered biosolids from the Laguna Wastewater Treatment Plant located at 4300 Llano Road, Santa Rosa, Biosolids Storage Facility located at 3000 Llano Road and Compost Facility located at 4301 Llano Road, CA 95407 for the contract period stated herein. The dewatered biosolids to be hauled shall discharge from the Belt Press Hopper. The dewatered biosolids shall have a solid content of approximately fifteen (15%) percent. Under normal operations there will be an average of 40-140 wet tons of dewatered biosolids to be hauled each day Monday through Saturday, inclusive. Should the Contractor fail to perform services as described herein, the CITY reserves the right to have the dewatered biosolids hauled to a site by a Contractor of its choice if deemed necessary. This option shall not be construed to be a suspension or cancellation of the contract work being performed within this contract.

The cost of such work and material shall be borne by Contractor, and, if the same is not paid on presentation, such costs may be deducted from any amounts due or to become due Contractor. The performance of such emergency or environmental work shall not relieve Contractor of responsibility for any damage which may occur.
