Subject: [EXTERNAL] Tiny home protections

Hello Christian,

As a Santa Rosa homeowner, I am very concerned that tiny homes may no longer be permitted. Please consider making tiny homes the same as ADU's. Housing at all financial levels is always needed and tiny homes are a good way to ensure everyone can enjoy the American dream of being a homeowner. I hope tiny home applications will continue to be accepted always. My younger sister would love to be able to have a tiny home and having her live nearby would be great.

Thanks so much,

Vicki Shreiner
