Subject: Commercial cannabis cultivation -Duke Ct- File #: cup16-073

Ms Nicholson:

My only concern re: this particular project is safety. We live adjacent to the Duke Ct property and with that much sq. feet, my math tells me that would be a great deal of cannabis. I am almost 82 years old and my daughter is 20 years younger but is not at all well. My main concern is the possibility of thieves using my property to reach the warehouse next door and vice versa. The hours are long but I do not see any security in place. The fence between properties is not very high or sturdy. My original request was no parking up close to fence and no smoking near fence and I will add that now we need much better security. I also am requesting no loud noises before 9:30AM particularly since I sleep in the back bedroom by french doors and do not arise until 9:30 AM. My other question is If I see or hear odd noises in the middle of night, do I call the SR police or SoCo Sheriff? Maybe both??!!

Sincerely

P.R. Selby
