Subject: College Station

Planner Nicholson,

I want to voice my support for the College Station CUP. This kind of retail project in the Station Area will help as more housing units are developed. I'm also excited that it will also be accessible via the SMART trail. I hope that the planning commission approves this CUP and that the College Station project along with other projects like the Pulman Lofts begin to transform the Station Area into a more vibrant place to live.

Sincerely,

Justin Whitaker
