

Bicycle Trail Route Amendment

April 12, 2018

Eric Gage
City Planner
Planning and Economic Development

Amend the following documents to delete a segment of proposed bicycle Route 231 between the Annadel State Park parking lot and White Oak Drive:

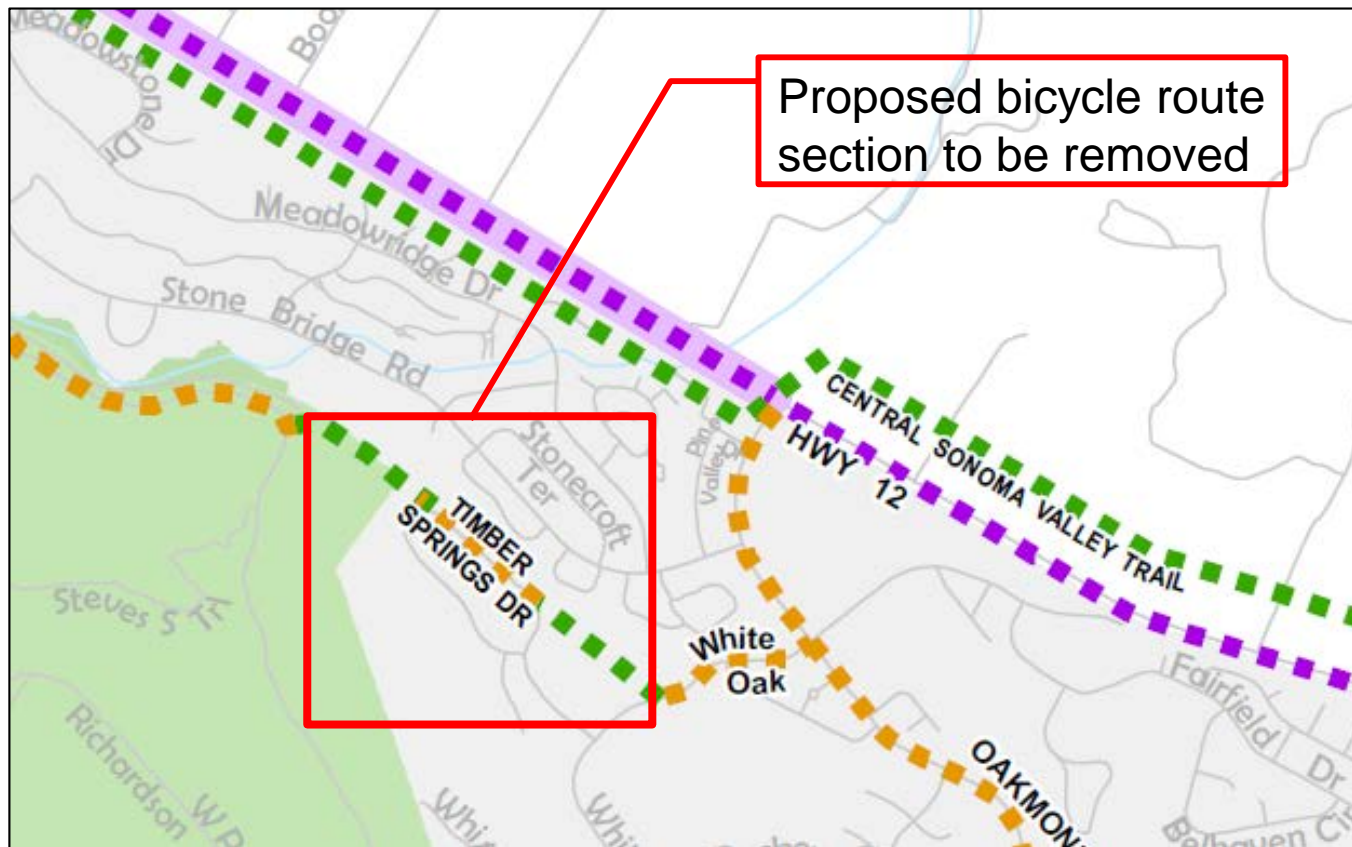

- General Plan
- Bicycle and Pedestrian Master Plan
- Citywide Creek Master Plan

Project Location

- November 4, 2010 - City filed suit against the Villages at Wild Oak Association and Roman Catholic Bishop of Santa Rosa seeking clarification of the use rights in the Public Access Easement.
- December 22, 2016 - Court ruled that the public easement was for pedestrian and emergency vehicle access only.
- November 29, 2017 - Neighborhood meeting held.

Proposed Amendment

- No written comments have been received.
- Representatives of the Wild Oak Association attended the neighborhood meeting
- ☐ Will continue to collaborate with City staff in future updates to the Bicycle and Pedestrian Master Plan.

Environmental Review

California Environmental Quality Act (CEQA)

- Exempt from CEQA, §15061(b)(3).
- The project causes no direct or indirect physical change on the environment, because it relocates proposed future development, and no new development is proposed as part of the project.

It is recommended by Planning and Economic Development Department that the Planning Commission:

- Recommend that the City Council approve a General Plan Amendment, Bicycle and Pedestrian Master Plan Amendment, and Citywide Creek Master Plan Amendment to delete a segment of proposed Bicycle Route 231, which would connect Annadel State Park to White Oak Drive.
