

06/11/2018

Dear Planning Staff, City of Santa Rosa,

I am writing to you on behalf of the folks applying for a permit under the name of Justice Grown, and I believe that you will find that they are a good fit for this permit.

I have known and worked with all three partners over the last decade both professionally during my time as Community Liaison at Peace in Medicine, and in other capacities such as working together towards cannabis legalization, cannabis activism events, and at various community fundraisers. These are outstanding people, with great track records of promoting and practicing sustainable, organic, cannabis cultivation. All three have also been most generous with their knowledge and abilities, helping others to reach their potential in growing and producing quality medicine in harmony with the environment.

I am certain that Justice Grown will help shape the new legal industry here in the city in a positive and sustainable way, and I urge you to grant them the required permits. Quite frankly, it would be hard to find three people who have given so much time and energy to the proper methods and development of Sonoma County Cannabis Cultivation. They are nice people too!

Please feel free to contact me on my cell at 415-307-3431 should you wish to speak with me in person on this matter.

Sincerely,

Mitchell P Thompson
