

## MEMORANDUM

**DATE:** August 21, 2018 [Continued from August 30, 2018 Agenda]

**TO:** Members of the Cannabis Subcommittee

**FROM:** Kristinae Toomians, Senior Planner

**SUBJECT:** Cannabis Retail Merit Based Review – Concentration Area – Piner Road

(A) 925 Piner Road  
(B) 950 Piner Road

CUP18-056  
CUP18-054

600ft Buffer from Proposed  
Retail Parcel Boundary

Prospective Cannabis  
Retail Applicant

**Background**

A total of 38 Cannabis Retail Conditional Use permit applications were filed during the application period. City staff reviewed the applications to ensure that applicants submitted all the required checklist items. Applicants were allotted 21 calendar days to respond to any items deemed missing, incomplete, or insufficient. Staff reviewed revised application materials and deemed 37 applications as complete.

Applications deemed complete within the prescribed time period were also evaluated for potential overconcentration. If a proposed location is within 600 feet of another proposed or existing retail location, then the project(s) will enter a competitive merit point based process. Planning staff identified a total of 21 applications, representing 7 areas of overconcentration, for this track. Staff evaluated each competitive application against four criteria that were identified in the City's *Cannabis Use Application Retail Use Requirements*, published on [www.srcity.org/cannabis](http://www.srcity.org/cannabis). Points were awarded based on the quality and extent that an application addressed the merit criteria. A total of 100 points may be awarded for all criteria.

After each individual application is reviewed and scored, staff compared the scores to determine which application responded best to the merit-based review criteria. Staff will recommend the highest scoring application to continue through the entitlement process, which will result in voiding the lower scoring applications in direct competition. Once the lower scoring applications are voided, this may result in one or more applications that are no longer within 600 feet of another proposed cannabis retail project. By default, the resulting noncompetitive project applications will move forward in the entitlement process.
