To whom it may concern:

It has come to our attention that there will be 8 townhomes built behind our property 4744 Sunshine Ave, Santa Rosa. Although this is clearly not in our best interest, we realize that there is nothing that can be done to stop this building from happening because the zoning allows it. However, we would like to recommend that you take into consideration the enormous disruption that this will have on our beautiful country property. We ask that you are considerate when planning for your project and please include a tall fence and trees that will mitigate the noise from the townhomes. We also ask that you are considerate as to strategize as best you can to take in consideration our property.

We have owned this property for almost 40 years now and love the country feel that we enjoy with having .5 an acre. We would appreciate all of the considerations possible when constructing your buildings.

If you have any questions or if you would like to reach us. You can contact Alejandra at salgadamendez10@yahoo.com or 707-481-9946

Thank You,

Aaron

I appose any increase in density on the east side 101 along the Hi-Way 12 corridor until Santa Rosa Planning addresses the east bound Hi Way 12 and Farmers lane intersection.

Thanks

Mike Raymond
