

Proposed Renovations – 403 Brown Street

- Remove non-original second story addition
- Construct new detached garage and studio
- Construct 180 sf addition on southwest side of house
- Repair / renovate exterior and roof
- Add fencing on east and north
- Remove holly

403 Brown Street

- California bungalow built in mid-1920s
- Contributor to Burbank Gardens Preservation District
- Prominent front porch with rock piers
- Clad with wood shingles

Early photographs – 403 Brown Street

Remove non-original second story

- Built late 1940s or early 50s
- Exterior siding and windows do not match house
- Built without sufficient bearing walls for support
- Steep and narrow interior staircase

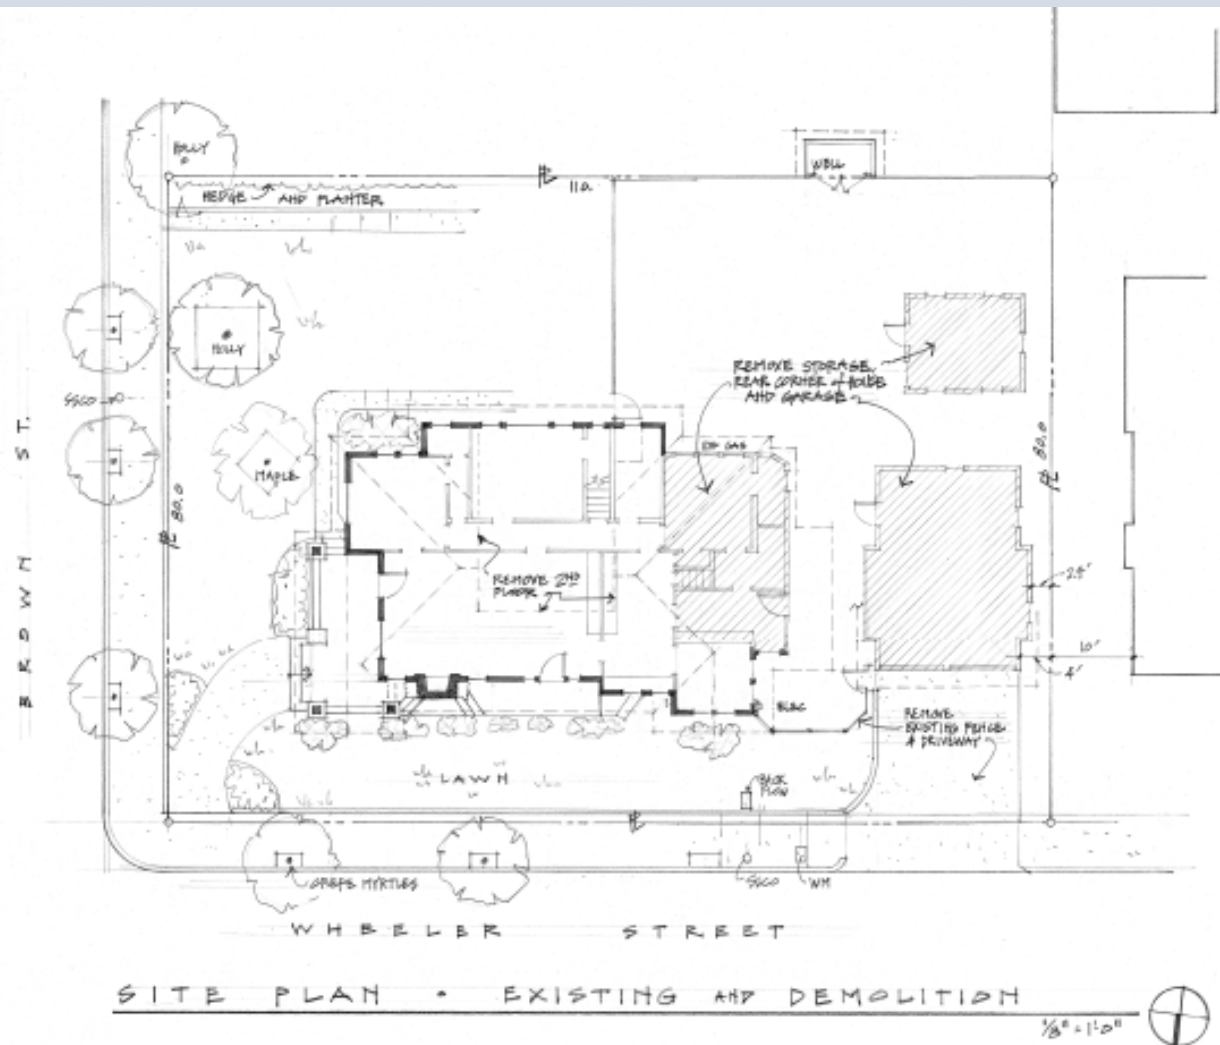

Replace garage and utility building

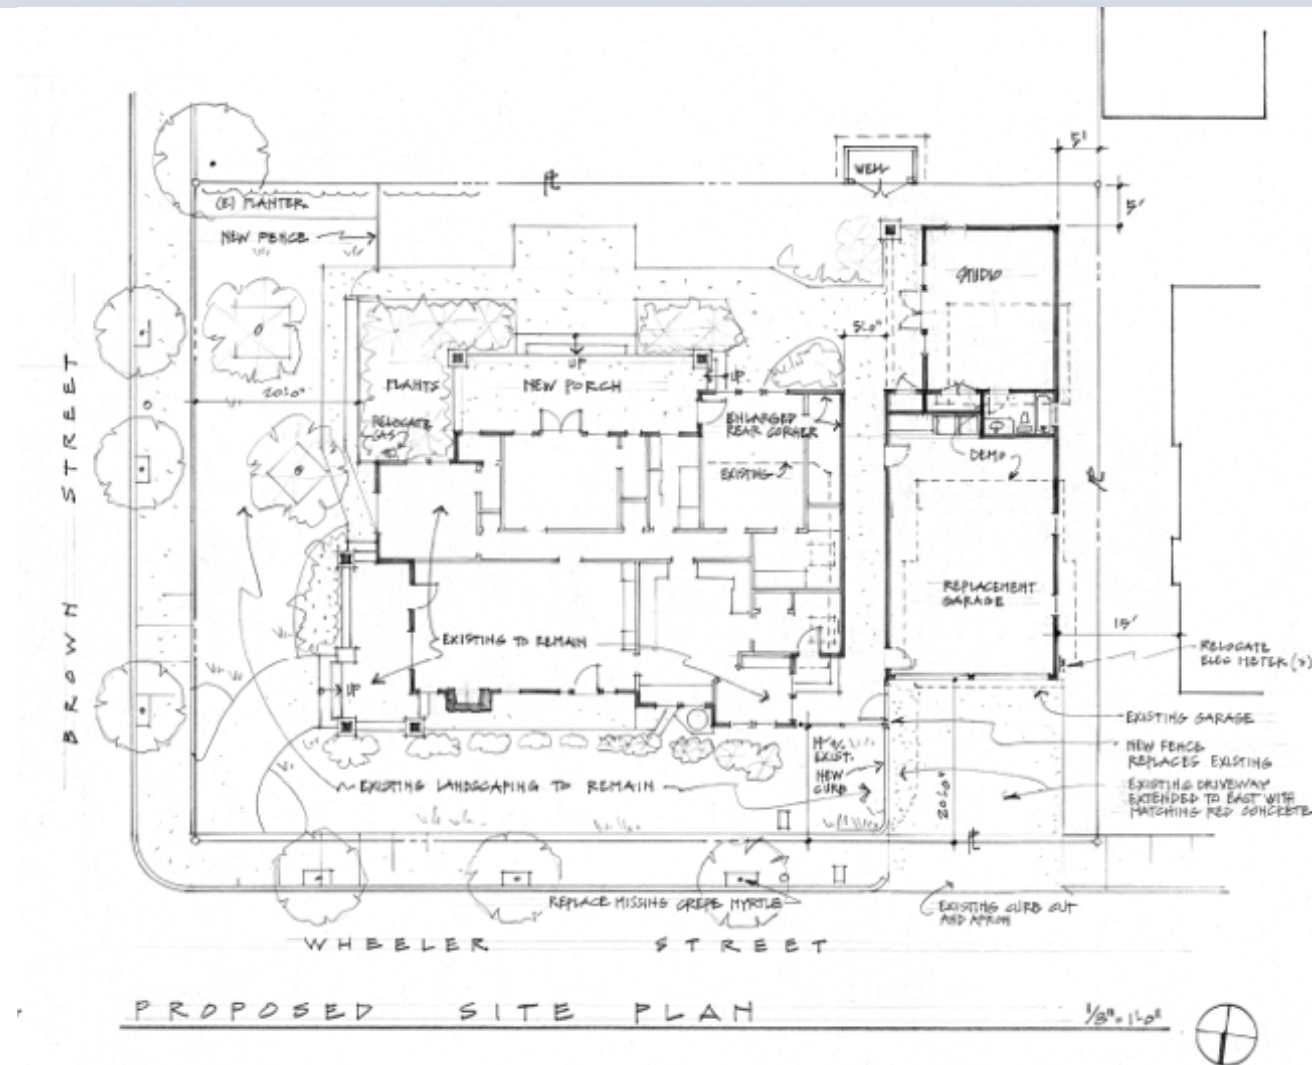

- Construction dates unknown
- Numerous modifications have occurred to both
- Significant damage to the structures due to dry rot, termites and lack of maintenance
- Garage grade level was low, resulting in flooding
- Buildings not historically significant
- City permitted demolition in August 2019

Existing Site Plan

Proposed Site Plan
