

CITY OF SANTA ROSA
BICYCLE AND PEDESTRIAN ADVISORY BOARD
STAFF REPORT
January 16, 2020

SUBJECT

Stony Point Road Corridor Study for
Active Transportation Modes Update

ISSUE

Staff will provide an update on the Stony
Point Road Corridor Study for Active
Transportation Modes.

STAFF PRESENTER

Nancy Adams

RECOMMENDATION

For information only. No action required.

BACKGROUND

The City's Bicycle and Pedestrian Master Plan Update 2018 (BPMPU2018) identified eight (8) corridor studies in the First Phase Project List.

The BPAB ranked the Stony Point Road corridor as the number one priority to evaluate due to the high rate of severe collisions involving bicyclists and pedestrians. The Planning efforts for the Stony Point Road Corridor Study for Active Transportation Modes will focus on evaluating bicycle and pedestrian facilities that increase comfort and may reduce the frequency and severity of collisions.

ANALYSIS

1. Proposals for the corridor study were due December 4, 2019. The City received three (3) proposals from Consultant teams - Alta Planning + Design, TJKM and W-trans.
2. Staff, with input from Board members Ralston, Heaviland and Ridlington, reviewed the proposals and selected W-trans to prepare the corridor study.
3. Staff is working with the W-trans team to finalize the scope of work and budget for the project. It is anticipated that the project will commence mid-January 2020.
