

RESOLUTION NO. CUP18-132

RESOLUTION OF THE ZONING ADMINISTRATOR OF THE CITY OF SANTA ROSA APPROVING A CONDITIONAL USE PERMIT TO ALLOW THE CONSTRUCTION OF AN ACCESSORY STRUCTURE FOR THE PROPERTY LOCATED AT 2021 PARK VISTA COURT, SANTA ROSA, APN: 013-390-008

The Santa Rosa Zoning Administrator has completed the review of your application. Please be advised that your Minor Conditional Use Permit to construct a 925 square foot detached garage and workshop located between the primary structure and the cul-de-sac has been granted based on your project description and official approved exhibit dated February 20, 2020. The Santa Rosa Zoning Administrator has based this action on the following findings:

- The proposed use is allowed within the applicable zoning district and complies with all other applicable provisions of this Zoning Code and the City Code. The matter has been properly noticed as required by Zoning Code Section 20-52.050.E.2.a, and no request for a public hearing has been received;
- The proposed use is consistent with the General Plan and any applicable specific plan;
- The design, location, size and operating characteristics of the proposed accessory use would be compatible with the existing and future land uses in the vicinity in that the current land use is residential and the use would provide two-car garage storage and workshop space which would not affect the operation of the adjacent community care facility and is located from the Park Vista Court right-of-way at a distance similar to the residential development in this area;
- The site is physically suited for the type, density, and intensity of the proposed accessory use, including access, utilities, and the absence of physical constraints in that the project site is currently developed for residential use and the proposed location of the accessory structure consists of undeveloped land within an unusually large access corridor;
- Granting the permit would not constitute a nuisance or be injurious or detrimental to the public interest, health, safety, convenience, or welfare, or materially injurious to persons, property, or improvements in the vicinity and zoning district in which the property is located in that the activities taking place within the accessory structure would comply with all applicable Zoning Code provisions, including the Noise Ordinance, and the proposed accessory structure is located across the driveway from the adjacent residential development;
- The proposed Project has been found exempt from the provisions of the California Surface Mining and Reclamation Act of 1975 because all proposed excavation and earthmoving activities can be identified as a necessary and integral part of a construction project; and
- The proposed project has been reviewed in compliance with the California Environmental Quality Act (CEQA) and qualifies for a Class 3 exemption under

Section 15303 in that the project consists of the construction of a small accessory structure.

This entitlement would not be granted but for the applicability and validity of each and every one of the below conditions and that if any one or more of the below conditions is invalid, this entitlement would not have been granted without requiring other valid conditions for achieving the purposes and intents of such approval. The approval of the project is contingent upon compliance with all the conditions listed below. Use shall not commence until all conditions of approval have been complied with. Additional permits and fees are/may be required. **It is the responsibility of the applicant to pursue and demonstrate compliance.**

Conditions of Approval

1. A building permit is required for all on site demolition, construction, and/or change of use.
2. Construction hours shall be limited to 7:00 a.m. to 7:00 p.m. Monday through Friday and 8:00 a.m. to 6:00 p.m. Saturdays. No construction is permitted on Sundays and holidays.
3. Comply with all applicable federal, state, and local codes. Failure to comply may result in issuance of a citation and/or revocation of approval.
4. Comply with the latest adopted ordinances, resolutions, policies, and fees adopted by the City Council at the time of building permit review and approval.
5. Provide a geotechnical investigation and soils report with the building permit application. The investigation shall include subsurface exploration and the report shall include grading, drainage, paving and foundation design recommendations.

This Minor Conditional Use Permit is hereby approved on this 6th day of August, 2020, for the duration of use provided conditions are complied with and use has commenced within two years from approval date. The approval is subject to appeal within ten calendar days from the date of approval.

APPROVED: _____
